### Review report

To: The Board of Directors of Edita Food Industries Company (S.A.E.)

### Introduction

We have reviewed the accompanying separate statement of financial position of Edita Food Industries (S.A.E.) as at 31 March 2021 and the related separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the three months period then ended, and notes comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these Separate interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these Separate interim financial statements based on our review.

### Scope of review

We conducted our review in accordance with Egyptian Standard on Review Engagements No. 2410, "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A review of Separate interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these Separate interim financial statements.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying separate interim financial statements do not present fairly in all material respects, the financial position of Edita Food Industries (S.A.E.) as at 31 March 2021, and of its financial performance and its cash flows for the three months period then ended in accordance with Egyptian Accounting Standards.

Ashraf Mamdouh R.A.A. 26231 F.R.A. 383

<sup>-</sup> The accompanying notes on pages 7 to 43 form an integral part of these separate financial statements.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 1. General information

Edita Food Industries S.A.E. was established on 9 July 1996, under the investment Law No. 230 of 1989 which had been replaced by law No. 8 of 1997 and the capital market Law No. 95 of 1992 and is registered in the commercial register under number 692 Cairo, and the company's period is for 25 years.

The Company is located in Sheikh Zayed city - Central Axis, Giza.

The company provides manufacturing, producing and packing of all food products and producing and packing of juices, jams, readymade food, dry goods, cakes, pastry, dairy products, meat, vegetables, fruits, chocolate, vegetarian products and other food products with all necessary ingredients, the company is registered in Egypt and London's stock exchange.

The main shareholders are Quantum Investment BV which owns 41.815% of the Company's share capital and the Bank of New York Mellon "depositary bank for shares traded in London Stock Exchange" which manages 11.921% of the Company share capital and Kingsway Fund Frontier Consumer Franchises which owns 8.210% of Company's share capital and other shareholders owning 38.054% of company's share capital.

These separate financial statements have been approved by the Chairman and Managing Director on 10 May 2021, and the General Assembly of shareholders has the right to amend the separate financial statements after being approved.

### 2. Accounting policies

The principal accounting policies adopted in the preparation of these separate financial statements are set out below which have been consistently applied to all years presented, unless otherwise stated.

### A. Basis of preparation

The separate financial statements have been prepared in accordance with Egyptian Accounting Standards (EASs) and applicable related laws and regulations. The separate financial statements have been prepared under the historical cost convention except for employees' end of services obligations, which is measured by the present value of the obligation.

The preparation of separate financial statements in conformity with Egyptian Accounting Standards (EAS) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to the separate financial statements are disclosed in Note (4).

Egyptian Accounting Standards (EAS) requires referring to the International Financial Reporting Standards (IFRS) in treating certain balances and transactions, which have not been covered in any Egyptian Accounting Standards or legal requirements.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### B. Foreign currency translation

### (1) Functional and presentation currency

Items included in the separate financial statements of each of the company's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency') (Egyptian Pounds). The separate financial statements are presented in Egyptian Pounds which is the company's functional and presentation currency.

### (2) Transaction and balances

Transactions in foreign currency during the period are recognised at the initial recognition with the functional currency of the company on the basis of translation of foreign currency which is the transaction is recorded with using the exchange intraday prevailing rate between the functional currency and the foreign currency at the date of the transaction, as well as monetary items translated or translation of items in foreign currency using the closing rate at the end of each fiscal period. And the company recognizes foreign currency revaluation differences resulting from the settlement of monetary items or for the translation of monetary items - by using the exchange rates different from those used in the translation at initial recognition in the same period or in previous financial statements - and within profit or loss in the period in terms of where these differences arise except when the postponement of the currency translation differences on the nature of the non-monetary items in the other comprehensive income, which is an effective part of the process to cover the net investment in a foreign currency or the effective portion of cash flow to cover the risk.

### C. Property, plant and equipment

The company applies the historical cost model at measuring Property, plant and equipment, all property, plant, and equipment are stated at historical cost less accumulated depreciation. Historical cost includes all costs associated with acquiring the asset and bringing it to a ready-foruse condition by the company's management

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised.

Depreciation is calculated by using the straight-line method to allocate the cost of each asset to its residual value over the estimated useful lives of assets except land, which is not depreciated.

Buildings25 yearsMachinery20 yearsVehicles5 yearsTools & equipment5 yearsFurniture & office equipment4-5 years

Salvage value and useful lives are reviewed and changed if necessary, by the company at the end of each fiscal year.

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount, and this will be considered as an impairment loss.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Impairment of non-financial assets (continued)

Impairment loss is recognised in the statement of profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount.

Non-financial assets other than goodwill that suffered impairment are reviewed by the company for possible reversal of the impairment at each reporting date.

The impairment loss is reversed by the amount recognized in prior year when there is an indication that these losses may no longer exist or decreased as is reversed impairment losses, which should not exceed the carrying amount that would have been determined (net of depreciation) recognizing this reverse in statement of profit or loss.

### F. Investments in subsidiaries

Investments in subsidiaries is accounted for using the cost method. Investment in subsidiaries in the separate financial statements is stated at cost. The Cost method require recognition of investment at cost and recording of investment income to the extent of dividends distribution received from investee. The subsidiaries are entities controlled by the Company, a subsidiary is separate when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

### G. Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity) but excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses. And the provision for obsolete inventory is created in accordance to the management's assessment.

### H. Financial assets under EAS 47

### a. Classification

From 1 January 2020, the Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI, or through profit or loss), and
- Those to be measured at amortized cost. The Company's financial asset at amortized cost comprise of trade receivables, other debit balances and treasury bills.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The company reclassifies debt investments when and only when its business model for managing those assets changes.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Financial assets under EAS 47 (continued)

### b. Measurement

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

### Debt instruments - treasury bills

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. According to the company business model the company subsequently measure debt instruments at amortised cost for Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/(losses), together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

### c. Impairment

From 1 January 2020, the company assesses on a forward-looking basis the expected credit loss associated with its debt instruments carried at amortized cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the company applies the simplified approach permitted by EAS 47, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

### 1. Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts that are repayable on demand which is characterized by fluctuating bank balance from a positive balance to an overdraft balance, bank overdrafts are shown in current liabilities in the separate statement of financial position.

### J. Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### K. Treasury Shares

When any Group entity purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes), is deducted from equity attributable to the Company's shareholders until the shares are cancelled or reissued. Repurchased shares are classified as treasury shares and are presented in equity. Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects is included within equity.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### L. Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date.

### M. Borrowings costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

The amount of borrowing costs eligible for capitalization on that asset shall be determined as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those Loans.

The company recognizes all other borrowing costs in profit or loss in the period in which they are incurred.

### N. Current and deferred income tax

The company recognizes the tax expense for the period, comprises current and deferred tax. In the statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the countries where the Company's subsidiaries and associates operate and generate taxable income. Management Annually evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the separate financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Current and deferred income tax (continued)

The deferred income tax is not accounted for if it arises from initial recognition of goodwill or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associates and joint arrangements, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the company and it is probable that the temporary difference will not reverse in the foreseeable future. Generally, the company is unable to control the reversal of the temporary difference for associates. Only where there is an agreement in place that gives the company the ability to control the reversal of the temporary difference not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint arrangements only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

### O. Employee benefits

The company operates various post-employment schemes, including both defined benefit and defined contribution pension plans and post-employment medical plans.

### (1) Pension obligations

### Defined contribution plan

For defined contribution plans, the company pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

### Defined benefit plan

The Company has a defined benefit plan which is a plan that defines an amount of benefits to be provided in the form of half month payment for each period they had worked for the Company for employees who reach the age of sixty, according to the following criteria:

- The contribution is to be paid to employees for their working period at the Company only.
- The working period must be not less than ten years.
- The maximum contribution is 12 months' salary.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Employee benefits (continued)

The liability in respect of defined benefit pension plans is the present value of the defined benefit obligation at the statement of financial position date minus the fair value of plan assets, together with adjustments for actuarial gains/losses and past service cost. The defined benefit obligation is calculated annually by independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by the estimated future cash outflows using interest rates of government bonds, which have terms to maturity approximating the terms of the related liability.

Actuarial gains and losses arising from experience adjustments, changes in actuarial assumptions and amendments to retirement plans are recognized in other comprehensive income.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit or loss.

### (2) Termination benefits

Termination benefits are payable when employment is terminated by the company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The company recognises termination benefits at the earlier of the following dates: (a) when the company can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Egyptian accounting standard no (28) and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

### (3) Profit-sharing and bonus plans

The company recognises a liability and an expense for bonuses and profit-sharing, based on a formula that takes into consideration the profit attributable to the company's shareholders after certain adjustments. The company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

### P. Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. The Company recognizes the necessary commitments for restructuring and non-related activities of the Company in the provision for restructuring costs.

Contingent liability is a present obligation that arises from past events but is not recognized because it is not probable that an out flow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are only disclosed in the separate financial statement and not recognized.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small and it is expected for the outflow of resources is necessary to settle all the elements of commitment.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Provisions (continued)

When the time value of money assumption is significant, provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense in the statement of profit or loss.

When it is expected to re-charge some or all required expenses to settle a provision to a third party outside the company, the Company recognize the recovered amount when it is certain that the recovery will take place if the company has to settle the obligation, and treats recovery as a separate asset in the statement of financial position, and shall not exceed the value that is recognized to recover the amount of the provision.

### Q. Trade payables and other credit balances

Trade payables are recognized initially at the value of goods or services received from others whether their invoices were received or not and subsequently measured at amortized cost using the effective interest rate. Trade payables are presented later with amortized cost using the effective interest rate.

### R. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The company recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the company's activities, as described below. The Company bases its estimate of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

### Sales of goods - wholesale

Sales are recognized when control of the products has transferred, being when the products are delivered to the wholesalers, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of damage and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the group has objective evidence that all criteria for acceptance have been satisfied.

The products is often sold with retrospective volume discounts based on aggregate sales over a 3 months period. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, based on actual volume, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A contract liability is recognized for expected volume discounts payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales are made with a credit term of 90 days, which is consistent with market practice. A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Revenue recognition (continued)

### 1) Interest income

Interest income is recognized on a time-proportion basis using the effective interest method. When a receivable is impaired, the company reduces the carrying amount to its recoverable amount.

### 2) Dividend income

Dividend income is recognised when the right to receive payment is established.

### 3) Export subsidy

The Company obtains a subsidy against exporting some of its production. The subsidy is calculated based on a percentage from the total exports invoices determined by the Export Development Fund related to the Commercial and Industry Ministry. Export subsidy is recognized in the statement of profit or loss as other income after meeting all required criteria.

### S. Dividends distribution

Dividend distribution is recorded in the company's separate financial statements in the period in which they are approved by the Company's General assembly of Shareholders.

### T. Government Grants

The Group receives government grants in form of loan at below market rate of interest. Government grants are initially recognized within other liabilities at fair value when there is reasonable assurance that it will be received, and the Group will comply with the conditions associated with the grant. Government grants relating to costs are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

### **U.** Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker for the Company. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the chief executive officer for the company.

### V. Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 3. Financial risk management

### (1) Financial risk factors

The company's activities expose it to a variety of financial risks: market risk (including currency risk, price risk and cash flow and fair value interest rate risk), credit risk and liquidity risk. The company's efforts are addressed to minimize potential adverse effects of such risks on the company's financial performance.

The company does not use any derivative financial instruments to cover specific risk.

### A. Market risk

### i. Foreign exchange risk

The company is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Euro and US dollar. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities at financial position date and net investments in foreign operations.

The Company covers part of its imports of raw materials in foreign currency by local banks that the Company deals with in official rates and the rest from its exports in US Dollars.

During the period, the following foreign exchange related amounts were recognized in profit or loss:

| ·                                                                                   | 31 March<br>2021 | 31 December 2020 |

The following table shows the currencies position denominated in Egyptian Pounds at the date of the statement of financial position.

|                     |                       |                               | 31 December 2020              |                               |
|---------------------|-----------------------|-------------------------------|-------------------------------|-------------------------------|
|                     | Assets                | Liabilities                   | Net                           | Net                           |
| Euros<br>US Dollars | 625,141<br>58,887,232 | (81,827,025)<br>(204,787,092) | (81,201,884)<br>(145,899,860) | (78,690,790)<br>(188,104,567) |

At 31 March 2021, if the Egyptian Pounds had weakened / strengthened by 10% against the Euro with all other variables held constant, profit for the year would have been EGP 8,120,188 (31 December 2020: EGP 7,869,079) higher / lower, mainly as a result of foreign exchange gains/losses on translation of Euro-denominated financial assets and liabilities.

At 31 March 2021, if the Egyptian Pounds had weakened / strengthened by 10% against the US Dollar with all other variables held constant, profit for the period would have been EGP 14,589,986 (31 December 2020: EGP 18,810,457) lower, mainly as a result of foreign exchange losses on translation of US dollar-denominated assets and liabilities.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Financial risk management (continued)

### ii. Price risk

The company has no investment in quoted equity securities, so it's not exposed to the fair value risk due to changes in the prices.

### iii. Cash flow and fair value interest rate risk

The Company's interest rate risk arises from long-term Loans. Loans issued at variable rates expose the Company to cash flow interest rate risk. Which is partially offset by short term time deposits which are renewed with the applicable interest rate at the time of renewal. Loans measured at amortized cost with fixed rates do not expose the Company to fair value interest rate risk.

At 31 March 2021, if interest rates on Egyptian pound -denominated net interest bearing liabilities had been 1% higher/lower with all other variables held constant, profit for the period would have been EGP 3,829,915 (31 December 2020: EGP 6,015,904) lower/higher, mainly as a result of higher/lower interest expense on floating rate Loans.

Borrowing at statement of financial position date as of 31 March 2021 with variable interest rate amounted to EGP 371,315,049 (31 December 2020: EGP 537,279,353).

Overdraft at the statement of financial position date as of 31 March 2021 amounted to EGP 11,676,499 (31 December 2020: EGP 64,311,046).

### B. Credit risk

Credit risk arises from cash and cash equivalents, and deposits with banks and financial institutions, treasury bills, as well as credit exposures to wholesalers and retail customers, including outstanding accounts and notes receivables.

For banks and financial institutions, the company is dealing with the banks which have a high independent rating and banks and financial institutions with a good reputation and subject to supervision of the Central Bank of Egypt.

For the wholesalers, the Credit Controllers assess the credit quality of the wholesale customer, taking into account its financial position, and their market reputation, past experience and other factors. Sales of the company are for a major customer (Digma for Trading – company's subsidiary), which represent 90% of total company's sales.

For Treasury bills, the Company deals with governments, which are considered with a high credit rating (Egypt B+).

For corporate Bonds the Group deals with EFG Hermes which are considered with a high credit rating (A +)

The maximum exposure to credit risk is the amount of receivables and the intercompany receivable, treasury bills as well as the cash and cash equivalents.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Financial risk management (continued)

### C. Credit quality of financial assets

### Trade receivables

Counter parties without external credit rating:

|                   | 31 March<br>2021 | 31 December 2020 |
|-------------------|------------------|------------------|
| Trade receivables | 9,362,328        | 7,309,560        |
| Total             | 9,362,328        | 7,309,560        |

Trade receivables are amounts due from customers for goods sold in the ordinary course of business. They generally due from settlement within 90 days.

Outstanding trade receivables are current and not past due.

### Cash at bank and short-term bank deposits:

All cash balances are deposited at banks that are subject to the supervision of the Central Bank of Egypt.

### D. Liquidity risk

Management monitors rolling forecasts of the company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants) on any of its borrowing facilities. Such forecasting takes into consideration the company debt financing plans, covenant compliance, compliance with internal statement of financial position ratio targets.

The table below summarizes the maturities of the Company's undiscounted financial liabilities at 31 March 2021 and 31 December 2020 based on contractual payment dates and current interest rates.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Financial risk management (continued)

The amount of unused credit facility is 819,927,000 of 31 March 2021 (31 December 2020: EGP 597,531,044) also the Company will have future interest payments related to Loans amounted to EGP 101,693,757 (31 December 2020: EGP 105,221,102).

### (2) Capital management

The company's objectives when managing capital are to safeguard the company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain an optimum, the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The company monitors the capital structure on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net loan represents all loans and overdraft and less cash and bank balances. Total capital is calculated as equity, plus net debts.

The gearing ratio at 31 March 2021 and 31 December 2020 were as follows:

| Description                    | 31 March<br>2021 | 31 December 2020 |
|--------------------------------|------------------|------------------|
| Total Borrowings               | 499,442,256      | 653,187,023      |
| Bank Overdraft                 | 11,676,499       | 64,311,046       |
| Total borrowings and overdraft | 511,118,755      | 717,498,069      |
| Less: Cash and bank balances   | (68,810,351)     | (143,662,933)    |
| Net debt                       | 442,308,404      | 573,835,136      |
| Total equity                   | 1,612,842,500    | 1,695,690,463    |
| Total capital                  | 2,055,150,904    | 2,269,525,599    |
| Gearing ratio                  | 22%              | 25%              |

The decrease in the gearing ratio mainly results from the decrease in Bank Overdraft and Borrowings during the period.

### Loan covenants:

Under the terms of the major borrowing facilities, the Company is required to comply with the following financial covenants:

- The debt to equity ratio must be not more than 1:1.
- Debt service ratio shall not fall below 1.25.
- Leverage ratio shall not exceed 1.5:1.
- Current ratio shall not be less than 1

As of 31 March 2021, the Company was in compliance with the debt covenants.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Financial risk management (continued)

### (3) Fair value estimation

The fair value of financial assets or liabilities with maturities date less than one year is assumed to approximate their carrying value. The fair value of financial liabilities — for disclosure purposes — is estimates by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments.

### 4. Critical accounting estimates and judgments and personal judgement

### (A) Critical accounting estimates and assumptions

Estimates and adjustments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results.

### Impairment of infinite life intangible assets (Trademark & Know How)

The Company tests whether infinite life intangible assets have suffered any impairment on an annual basis.

The recoverable amount of a cash generating unit (CGU) is determined based on a value in use calculations which require the use of assumptions (Note 6).

### Employee benefit retirement obligation

The present value of employees' defined benefits obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost of employees' benefits include the discount rate of future cash outflows and any changes in these assumptions will impact the carrying amount of employees' benefits.

The Company determines the appropriate discount rate of cash flows at the end of each financial period. The discount rate is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefits obligations. The Company considers the discount rate at the end of the financial period on market returns on the government bonds denominated in the currency and the period estimated for the defined benefits obligations.

Note (16) shows the main assumptions used to estimate the employees' benefit obligation.

### (B) Critical judgments in applying the company's policies

### Revenue recognition

The Company, based on past performance, are confident that the quality of products is such that the expiry and dissatisfaction rate will be below 1%. Management has determined that it is highly probable that there will be no reversal of revenue recognized and a significant reversal in the amount of revenue will not occur.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Property, plant and equipment (continued)

Depreciation included in the statement of profit or loss is as follows:

|                                    | 31 March<br> | 31 December 2020 |
|------------------------------------|--------------|------------------|
| Charged to cost of sales           | 26,942,463   | 101,238,070      |
| Charged to administrative expenses | 4,177,239    | 17,240,537       |
| Charged to distribution costs      | 93,794       | 427,203          |
|                                    | 31,213,496   | 118,905,810      |

The project under construction represents the following Categories:

|                                   | 31 March<br>2021 | 31 December 2020 |
|-----------------------------------|------------------|------------------|
| Buildings                         | 9,264,616        | 8,282,146        |
| Machinery and equipment           | 16,928,169       | 139,284,152      |
| Tools and equipment               | 7,537,765        | 3,750,017        |
| Technical and other installations | 15,971,068       | 6,219,892        |
|                                   | 49,701,618       | 157,536,207      |

### Cash flow statement

The proceeds from disposal of fixed assets amount in the cash flow represented as follows:

| •                                                       | 31 March<br>2021 | 31 December 2020 |
|---------------------------------------------------------|------------------|------------------|
| Net book value of the assets disposed                   | 8,959            | 7,443            |
| Gain on sale of property, plant and equipment (Note 22) | 134,741          | 898,336          |
|                                                         | 143,700          | 905,779          |

| Balance as of                              | 2,976,426        | 3,640,937           |  |

### D. Impairment test for infinite life intangible assets

Infinite life intangible assets are monitored by management at the level of cake segment – cash generating unit.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Intangible assets (continued)

### E. Recoverable amount of cake segment

The recoverable amount of the cake segment is determined based on value-in-use calculation which require the use of assumptions. The calculations use cash flows projections based on financial budgets approved by management covering a five-year period.

Cash flows beyond the five-year period are extrapolated using the estimated growth rate stated below. This growth rate is consistent with for casts included in industry reports specific to the industry which each CGU operates.

The impairment of intangible assets is reviewed annually to ensure that the carrying value of the intangible assets does not exceed the recoverable value.

Assumptions used by the Company when testing the impairment of intangible assets as of 31 March 2021 as follows:

| Average gross margin | 43% |
|----------------------|-----|
| Sales growth rate    | 11% |
| Discount rate        | 17% |
| Growth rate          | 3%  |

Management has determined the value assigned to each of the above key assumption as follows:

| Assumption                 | Approach used                                                                                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sales volume               | Average annual growth rate over the five-year forecast period; based on past performance and management's expectations of market development                           |
| Sales price                | Average annual growth rate over the five-year forecast period; based on current industry trends and including long term inflation forecasts.                           |
| Budgeted gross margin      | Based on past performance and management's expectations for the future.                                                                                                |
| Other operating costs      | Fixed costs of the CGUs, which do not vary significantly with sales volumes or prices. Management forecasts these costs based on the current structure of the business |
| Annual capital expenditure | Expected cash costs in the CGUs. This is based on the historical experience of management, and the planned refurbishment expenditure                                   |
| Long-term growth rate      | This is the weighted average growth rate used to extrapolate cash flows beyond the budget period. The rates are consistent with forecasts included in industry reports |
| Pre-tax discount rates     | Reflect specific risks relating to the industry in which it operate.                                                                                                   |

The Company test the impairment of intangible assets depending on financial, operational, marketing position in the prior years, and its expectation for the market in the future by preparing a business plan using the growth rate and the discount rate prevailing. At the statement of financial position date, the carrying value of the intangible assets is less than its recoverable amount.

### Sensitivity of recoverable amounts

The growth rate in the forecast period has been estimated to be 3%. If all other assumptions kept the same, a reduction of this growth rate by 100% would give a value in use exceed the current carrying amount.

The discount rate in the forecast period has been estimated to be 14%. If all other assumptions kept the same, and the discount rate is 40% would give a value in use exceed the current carrying amount.

At 31 March 2021, if the gross profit rate had increased / decreased by 1% with all other variables held constant, the recoverable amount is higher than the carrying amount, therefore there will be no need to make an impairment.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 7. Investments in subsidiaries

On 6 March 2019, the company signed an official agreement with Confindel LTD for the acquisition of 2,279,287 shares (22.27%) which is their total ownership in Edita Confectionary Industries for a total consideration of 55,297,782. | •                                            | 479,675,000      | 474,525,000         |
| Unearned interest                            | (31,212,618)     | (32,297,095)        |
| Amount of treasury bills paid                | 448,462,382      | 442,227,905         |
| Interest income recognized to profit or loss | 12,387,012       | 6,661,283           |
| Treasury bills balance                       | 460,849,394      | 448,889,188         |

The average effective interest rate related to treasury bills is 13%.

The group has adopted 12-month ECL approach, based on management assessment, there will be immaterial impact on treasury bills due to the following factors:

- It is issued and guaranteed by Government of Egypt.
- There is no history of default.
- Incorporating forward-looking information would not result in an increase in Expected default rate.

### 11.2 Corporate Bonds

|                                              | 31 March<br>2021 | 2020       |
|----------------------------------------------|------------------|------------|
| Corporate bonds                              |                  |            |
| More than 90 Days maturity                   | 50,000,000       | 50,000,000 |
| Interest income recognized to profit or loss | 1,745,973        | 342,959    |
| Ç î                                          | 51,745,973       | 50,342,959 |

On December 2020 the group purchased Corporate bonds of EFG-Hermes amounted to EGP 50 million with a maturity on December 2021 and effective interest rate 11.38%.

The carrying value of the bonds approximate the fair value at initial recognition since the bonds bear a prevailing market rate of interest

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 12. Cash and banks balances

|                        | 31 March<br>2021 | 31 December 2020 |
|------------------------|------------------|------------------|
| Cash on hand           | 1,184,043        | 398,244          |
| Cash at banks          | 22,188,718       | 6,507,499        |
| Time Deposits          | 45,437,590       | 136,757,190      |
| Cash and bank balances | 68,810,351       | 143,662,933      |

The average rate on time deposit is 1% with a maturity of less than three months.

For the purpose of the preparation of the cash flow statements, cash and cash equivalents consist of:

|                                                    | 31 March<br>2021 | 31 December 2020 |

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 16. Employee retirement benefit obligations

Employees of the company are entitled upon their retirement based on a defined benefit plan. The entitlement is based on the length of service and final remuneration package of the employee upon retirement. The defined benefit obligation is calculated using the projected credit unit method takes into consideration the principal actuarial assumptions as follows:

|                              | 31 March<br>2021 | 31 December 2020 |
|------------------------------|------------------|------------------|
| Discount rate                | 14.2%            | 14.2%            |
| Average salary increase rate | 10%              | 10%              |
| Turnover rate                | 21%              | 21%              |
| Life table                   | 49-52            | 49-52            |

The amounts recognized at the statement of financial position date are determined as follows:

|                                                  | 31 March<br>2021 | 31 December 2020 |
|--------------------------------------------------|------------------|------------------|
| Present value of obligations                     | 19,838,638       | 20,164,016       |
| Liability at the statement of financial position | 19,838,638       | 20,164,016       |
|                                                  | and the same     |                  |

Movement in the liability recognized in the statement of financial position:

| Movement in the hability recognized in the statement of infanct | 31 March<br>2021 | 31 December 2020 |
|-----------------------------------------------------------------|------------------|------------------|
| Balance at beginning of the year                                | 20,164,016       | 11,600,000       |
| Interest expenses                                               | 715,823          | 1,647,200        |
| Current service cost                                            | 784,174          | 2,648,486        |
| Total amount recognised in profit or loss (Note 23)             | 1,500,000        | 4,295,686        |
| Remeasurements: - Loss from change in assumptions               |                  | 4,704,314        |
| Total amount recognised in other comprehensive income           | •                | 4,704,314        |
| Paid during the period / year                                   | (1,825,378)      | (435,984)        |
| Balance at end of the period / year                             | 19,838,638       | 20,164,016       |

### Sensitivity in Defined Benefit Obligation: -

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

|               | Change in assumption | Increase in assu | mption | Decrease in assu |     |
|---------------|----------------------|------------------|--------|------------------|-----|
| Discount rate | 1%                   | Decrease by      | 7%     | Increase by      | 12% |

The above sensitivity analyses are based on a change in discount rate while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the separate balance sheet statement.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 17. Deferred tax liabilities, net

Deferred income taxes represent tax expenses on the temporary differences between the tax basis of assets and liabilities and their carrying amounts in the financial statements.

Notes to the separate financial statements  $\sim$  For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 18. Provisions

|                                                                | 31 March<br>2021      | 31 December 2020         |
|----------------------------------------------------------------|-----------------------|--------------------------|
| Balance at 1 January Charged during the period /year (Note 23) | 25,408,958<br>367,258 | 14,243,408<br>16,750,025 |
| Utilized during the period / year                              | (596,000)             | (2,500,000)              |
| No longer required                                             | <del>-</del>          | (3,084,475)              |
| Ending Balance as of                                           | 25,180,216            | 25,408,958               |

Provisions related to claims expected to be made by a third party in connection with the company's operations. The information usually required by Egyptian Accounting Standards is not disclosed because the management believes that to do so would seriously prejudice the outcome of the negotiation with that party. These provisions are reviewed by management every year and the amount provided is adjusted based on latest development, discussions and agreements with the third party.

### 19. Bank overdrafts

|                | 31 March<br>2021 | 31 December 2020 |
|----------------|------------------|------------------|
| Bank overdraft | 11,676,499       | 64,311,046       |
| Total          | 11,676,499       | 64,311,046       |

Bank overdraft is an integral part of the Company's cash management to finance its working capital. The average interest rate for bank overdraft was 9.25 % as of 31 March 2021 (31 December 2020: 9.29 %).

### 20. Trade and other payables

|                                                          | 31 March 2021 | 31 December 2020 |
|----------------------------------------------------------|---------------|------------------|
| Trade payables                                           | 171,753,407   | 176,761,044      |
| Payables from purchase of property, plant, and equipment | 60,377,301    | 64,177,886       |
| Notes payable                                            | 48,577,446    | 61,578,440       |
| Taxes payable                                            | 26,751,151    | 26,676,620       |
| Accrued expenses                                         | 95,243,114    | 68,365,558       |

### 26. Earnings per share

### Basic

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period.

|                                                     | 31 March<br>2021 | 31 March<br>2020 |
|-----------------------------------------------------|------------------|------------------|
| Profit for the period                               | 100,202,037      | 95,195,186       |
| Weighted average number of ordinary shares in issue |                  |                  |
| Ordinary shares                                     | 725,362,900      | 725,362,900      |
| Treasury shares                                     | (2,304,461)      |                  |
|                                                     | 723,058,439      | 725,362,900      |
| Basic earnings per share                            | 0.14             | 0.13             |

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Earnings per share (continued)

### Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The company does not have any categories of dilutive potential ordinary shares, hence the diluted earnings per share is the same as the basic earnings per share.

### 27. Expenses by nature

| -                                                           | 31 March<br>2021 | 31 March<br>2020 |

|                          | Operating profit | Finance cost | Finance income | Income tax | Net profit |

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### Segment reporting (continued)

The segment information disclosed in the table above represents the segment information provided to the chief operating decision makers of the Company.

- Management has determinsaed the operating segments based on the information reviewed by the chief operating decision makers of the Company for the purpose of allocating and assessing resources.
- The chief operating decision makers consider the business from products perspective. Although Rusks, Wafer, and Candy do not meet the quantitative threshold required by EAS 41 for reportable segments, management has concluded that these segments should be reported as it is closely monitored by the chief operating decision makers as it is expected to materially contribute to the Company revenue in the future.
- The chief operating decision makers assesses the performance of the operating segments based on their operating profit.
- There were no inter-segment sales made during the period.
- Finance income and finance cost are not allocated to segments, as this type of activity is driven by the central treasury function which manage the cash position of the Company.

### 29. Contingent liabilities

The Company guarantees Digma for trading company and Edita confectionary Industries against third parties in borrowing from Egyptian Banks.

The Company had contingent liabilities in respect of letters of guarantee and letters of credit arising from ordinary course of business amounted to EGP 72,094,662 as at 31 March 2021 (31 December 2020: EGP 39,835,555).

### 30. COVID 19 Impact

In response to the spread of the Covid-19 in Egypt and other territories where Group operates and its resulting disruptions to the social and economic activities in those markets, Edita's management has proactively assessed its impacts on its operations and has taken a series of preventive measures, including the creation of on-going crisis management teams and processes, to ensure the health and safety of its employees, customers, consumers and wider community as well as to ensure the continuity of supply of its products throughout its markets. Notwithstanding these challenges.

Edita's business operations currently remain slightly impacted as the food industry in general is exempted from various bans and constraints imposed by various regulatory authorities including exemption from curfew hours and cargo shipping and flight operations restrictions. Based on these factors, Edita's management believes that the Covid-19 pandemic has had no material effects on Edita's reported financial results for the three months period ended 31 March 2021. Edita's management continues to monitor the situation closely.

However, as explained above, the Group has reviewed the key sources of estimation uncertainties disclosed in the last annual Consolidated Financial Statements against the backdrop of Covid-19 pandemic as follows:

Impairment of non-financial assets: There company has carried out impairment testing for all non-financial assets at 31 March 2021, the test results showed no impairment loss as indicated in Note (6).

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### COVID 19 Impact (continued)

All other sources of estimation uncertainty remain similar to those disclosed in the annual Consolidated Financial Statements. Management will continue to monitor the situation and any changes required will be reflected in future reporting periods.

### 31. Tax position

Due to the nature of the tax assessment process in Egypt, the final outcome of the assessment by the Tax Authority might not be realistically estimated. Therefore, additional liabilities are contingent upon the tax inspection and assessment of the Tax Authority. Below is a summary of the tax status of the Company as of the date of the financial statements date.

### **Edita Food Industries Company**

### a) Corporate tax

- The company is tax exempted for a period of 10 years ending 31 December 2007 in accordance with Law No. 230 of 1989 and Law No. 59 of 1979 related to New Urban Communities. The exemption period was determined to start from the fiscal year beginning on 1 January 1998. The company submits its tax returns on its legal period.
- The tax inspection was performed for the period from the company's inception till 31 December 2012 and all due tax amounts paid.
- For the years 2013-2016; the company finalized the tax inspection and the difference was transferred to an internal committee.
- For the years 2017 2019 the Company submitted the tax return according to law No. 91 of 2005 in its legal period and has not been inspected yet.

### b) Payroll tax

- The payroll tax inspection was performed till 31 December 2014 and company paid tax due.
- As for the years 2015 till 2019 the tax inspection has not been performed and the company is submitting the quarterly tax return on due time to the Tax Authority.

### c) VAT & Sales tax

- The sales tax inspection was performed till 31 December 2019 and tax due was paid.

### d) Stamp duty tax

- The stamp duty tax inspection was performed till 2018 and the difference was transfer to internal committee.
- Years from 2019 till 2020 tax inspection has not been performed.

### 32. Commitments

### Capital comments

The Company has capital commitments as of 31 March 2021 of EGP 63.9 M (31 December 2020: EGP 66.7 M) in respect of the capital expenditure.

Notes to the separate financial statements - For the three months period ended 31 March 2021

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

<sup>\*</sup> At the Balance sheet date, the carrying value of all short-term financial assets and liabilities approximates the fair value. Long-term borrowings also approximate the fair value as the loans bears a variable interest rate, so the fair value approximate the principal amount.

Trade and other receivables presented above excludes prepaid expenses, advances to supplies and taxes.

Trade and other payables presented above excludes taxes payables, advances from customers, deferred government grant and social insurances.
