

Edita Installs Rooftop Solar PV System at Sheikh Zayed Headquarters

With its investment in solar energy, Edita takes a concrete step toward cleaner operations and Egypt's 2030 renewable energy ambitions

Cairo, 5 May 2026

Edita Food Industries S.A.E. (EFID.CA on the Egyptian Exchange), a leading player in Egypt's packaged snack food market, announced today the commissioning of a rooftop photovoltaic (PV) solar energy system at its Sheikh Zayed headquarters. The system spans three headquarter buildings, including Edita's administrative building, central warehouse, and central research and innovation building, with a total installed capacity of approximately 390 kWp.

The project is in line with Edita's sustainability strategy and is consistent with Egypt's Vision 2030 sustainability agenda, including the government's target of sourcing at least 42% of national electricity from renewable energy by 2035.

Through this project, Edita aims to reduce its carbon footprint by lowering conventional electricity consumption and increasing reliance on cleaner energy sources. The initiative reflects the Company's broader commitment to fostering a greener operating environment and embedding more sustainable practices across its facilities and day-to-day operations.

Project execution was supported by a three-party technical collaboration. Advanced Engineering Consultants (ADVEC) served as the independent engineering consultant, validating all design specifications against international safety standards and ensuring alignment with Edita's operational requirements. Integrated Renewable & Sustainable Communities (IRSC), a specialized renewable energy developer with expertise in EPC and IPP solutions across solar, hybrid, and micro-grid systems, worked closely with ADVEC and Edita's internal Environmental Sustainability team to conduct comprehensive site-specific solar audits across the three buildings prior to installation.

The selection of the Sheikh Zayed headquarters followed a structured assessment of six of the Company's facilities across Egypt. Each site was evaluated against a defined set of financial and environmental criteria, including energy consumption profiles, roof load capacity, grid connectivity, and projected return on investment. Sheikh Zayed was identified as the prioritized site based on this analysis, offering the most favourable combination of technical viability and long-term impact.

Commenting on the agreement, Eng. Hani Berzi, Group Chairman of Edita Food Industries, said: "Sustainability is a core pillar of Edita's long-term strategy, and this project is a tangible expression of that commitment. It comes at a time when domestic energy security has become a key priority for both the public and private sectors, while also supporting the government's efforts to reduce Egypt's reliance on conventional fossil fuels and accelerate

the adoption of renewable alternatives. As Egypt advances its Vision 2030 agenda, this initiative reflects Edita's direct contribution to the country's broader goals of energy conservation and transition toward cleaner, more sustainable sources.”

About Edita Food Industries S.A.E.

Edita, founded in 1996 and headquartered in Egypt, is a leader in the growing Egyptian packaged snack food market. The Company manufactures, markets and distributes a range of branded baked snack products including packaged cakes, bakery, rusks (baked wheat), wafers and biscuits as well as selected confectionary/candy products. The Company's local brand portfolio includes household names such as TODO, Molto, Bake Rolz, Bake Stix, Freska, Oniro and MiMix. The Company also owns the Twinkies, HOHO's and Tiger Tail brands in all of Africa as well as in, Jordan, Palestine, Syria, Lebanon, Iraq, Bahrain, Oman, the UAE, Kuwait, Qatar and Saudi Arabia. The Company holds strong number one market positions in its core cake and bakery segments as well as in rusks, a leading market position in wafers and candy, and a growing market position in the biscuits segment. In FY2025, the Company derived 90% of its revenue from Egypt and 10% from regional export markets. Learn more at ir.edita.com.eg.

Forward-Looking Statements

This communication contains certain forward-looking statements. A forward-looking statement is any statement that does not relate to historical facts and events, and can be identified by the use of such words and phrases as “according to estimates”, “aims”, “anticipates”, “assumes”, “believes”, “could”, “estimates”, “expects”, “forecasts”, “intends”, “is of the opinion”, “may”, “plans”, “potential”, “predicts”, “projects”, “should”, “to the knowledge of”, “will”, “would” or, in each case their negatives or other similar expressions, which are intended to identify a statement as forward-looking. This applies, in particular, to statements containing information on future financial results, plans, or expectations regarding business and management, future growth or profitability and general economic and regulatory conditions and other matters affecting the Company.

Forward-looking statements reflect the current views of the Company's management (“Management”) on future events, which are based on the assumptions of the Management and involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. The occurrence or non-occurrence of an assumption could cause the Company's actual financial condition and results of operations to differ materially from, or fail to meet expectations expressed or implied by, such forward-looking statements.

The Company's business is subject to a number of risks and uncertainties that could also cause a forward-looking statement, estimate or prediction to differ materially from those expressed or implied by the forward-looking statements contained in this prospectus. The information, opinions and forward-looking statements contained in this communication speak only as at its date and are subject to change without notice. The Company does not undertake any obligation to review, update, confirm or to release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise in relation to the content of this communication.
