**Limited review report on consolidated interim financial statements**

**To: The Board of Directors of GB Corp (S.A.E)**

***Introduction***

We have performed a limited review for the accompanying consolidated interim statement of financial position of GB Corp (S.A.E) as at September 30, 2025 and the related consolidated interim statements of Profit or Loss and comprehensive income, changes in equity, and cash flows for the nine-months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these consolidated interim financial statements based on our limited review.

***Scope of Limited Review***

We conducted our limited review in accordance with Egyptian Standard on Review Engagements (no. 2410), "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these consolidated interim financial statements.

***Conclusion***

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not present fairly, in all material respects, the consolidated interim financial position of the Company as at September 30, 2025 and of its consolidated financial performance and its cash flows for the nine-months then ended in accordance with Egyptian Accounting Standards.

## **4- Use of judgement and estimates**

- In preparing the consolidated financial statements in accordance with Egyptian Accounting Standards (EAS), management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and assumptions are based on past experience and various factors. Actual results may differ from these estimates.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

- Estimates and underlying assumptions are reviewed on an ongoing basis.
- The recognition of the change in accounting estimates in the period in which the change in estimate occurs, if the change affects only that period, or in the period of change and future periods if the change affects both.

#### A- Measurement of fair value

- The fair value of financial instruments determines based on the market value of a financial instrument or similar financial instruments at the date of the financial statements without deducting any estimated future costs of sale. The financial asset values are determined at current prices for the purchase of those assets, while determining the value of financial liabilities at current prices, which could be settled by those liabilities.
- In the absence of an active market to determine the fair value of financial instruments, the fair value is estimated using various valuation techniques, taking into consideration the transactions price that has recently or be guided by the current fair value of other instruments which is substantially similar. Or the use of discounted cash flow or any other evaluation method that leads to results that can be relied upon it.
- When using the discounted cash flow method as a way for the evaluation, the future cash flows are estimated based on the best estimates of management. And determined the discount rate used in the prevailing market price at the date of the financial statements of financial instruments are similar in nature and terms.

#### 5- Operating Segments

- The Group has the following four operational segments, which are its reportable segments to top management. These segments offer different products and services and are managed separately because they require different technology and marketing strategies.
- The following summary describes the operations for each reportable segment:

| <u>Reportable segment</u>      | <u>Operations</u>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

GB Corp. (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

#### 10-Earnings per share

##### A- EPS in consolidated net profit

Basic earnings per share is calculated by dividing net consolidated profit for the period by the weighted average number of ordinary shares issued during the period.

On 26 March 2025, the General Assembly unanimously approved the distribution of dividends for the fiscal year ending on 31 December 2024 in the amount of 379,925,000 Egyptian pounds (35 piasters per share in the total capital of 1,085,500,000 EGP), to be paid in two installments: the first installment of 20 piasters per share on 30 April 2025 and the second installment of 15 piasters per share on 17 July 2025.

**Goodwill**

On September 8, 2008, GB Corp (GB Auto Previously) fully acquired the shares of GB for financial lease (S.A.E) which its business is financial leasing with all its fields, and the acquisition resulted in goodwill amounted to EGP 1 million.

During November 2010, the Group entered into 50% investment as a joint venture agreement in Almajmoa Alalamia Litijaret Alsaiaarat (GK), in Jordan, to acquire the existing business in Iraq, the joint venture agreement gives the group the power to govern the financial and operating policies of (GK) and as a result of this investment the group recognized a goodwill with an Amount USD 14 million equivalent to EGP 672 million . During 30 September 2021 increased its stake in Almajmoa Alalamia Litijaret Alsaiaarat (GK) from 50% to 83.33% .

On October 26, 2017 the group fully acquired the shares of Egyptian International Maintenance and cars Manufacturing Company EIAC (S.A.E), and the acquisition resulted in goodwill amounted EGP 2.8 million.

During the second quarter of 2024, through a partnership agreement, the group invested 64.16% in Superior International For Automotive Trading company for the purpose of acquiring the existing car activity in Jordan. This agreement gives the group rights that enable it to control the financial and operational policies of Superior International For Automotive Trading company. This investment resulted in Recognition of goodwill amounting to USD 3.9 million equivalent to 186 million Egyptian pounds and that is based on preliminary study in light of the current information available to date.

Goodwill is allocated as presented below:

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025  
(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

#### 19-Intangible assets and goodwill (Continued)

The Company assesses annually the impairment of goodwill at December 31, to ensure whether the carrying amount of the goodwill is fully recoverable, unless there are indicators required to test the impairment through the year.

Impairment of goodwill is assessed based on value in use, which is determined using the expected discounted cash flows based on estimated business plan approved by the Board of Directors covering five years' period. The management is preparing these estimated business plan based on the financial, operating and market performance in the previous years and its expectations for the market development.

#### **\*Right to use trademark**

On June 28, 2007, GB Corp ( GB Auto Previously) fully acquired the shares of Cairo Company for Personal Transportation Industries (Citi) by purchasing 49.03%, which was owned by the minority, at a value of 210 million Egyptian pounds, in return for obtaining shares from the issuance of shares to increase the capital of the company.

GB Corp ( GB Auto Previously). Based on this acquisition, the company obtained the right to use the trademark of one of the company's main suppliers related to the activity of the 2&3 wheelers Sector, at an amount of 177 million Egyptian pounds on the date of acquisition.

#### 20-Issued and paid up in capital

Authorized capital (5 000 000 000 shares with par value EGP 1 each)

| September 30, 2025 | December 31, 2024 |
|--------------------|-------------------|
| 5 000 000          | 5 000 000         |
| 1 085 500          | 1 085 500         |

Issued and paid capital (1 085 500 000 shares with par value of EGP 1 each)

On August 31, 2014, the Board of Directors according to the delegation of the extra ordinary assembly meeting held on June 27, 2013, has decided unanimously to increase the Company's issued capital with the par value in the limit of the authorized capital with an amount of EGP 6 444 645 divided on 6 444 645 shares with a par value of 1 EGP /share, wholly allocated to ESOP system which is applied by the Company, resulted in an issued capital of

EGP 135 337 545 after the increase divided on 135 337 545 shares with a par value of 1 EGP/share, and this increase financially fully paid from the special reserve balance and annotated in the commercial register at December 31, 2014.

#### (Capital Increase)

on February 4, 2015, the extra ordinary general assembly meeting, has agreed to increase the Company's authorized capital from 400 million EGP to 5 billion EGP and to increase the Company's issued capital from

EGP 135 337 545 to be EGP 1 095 337 545 with an increase of EGP 960 000 000 to be divided on 1 095 337 545 shares with a par value of 1 EGP each. (In additional to issuance cost of 1 pts./share), and that increase to be fully allocated for the favor of old shareholders each according to their share in the Company's issued capital , and it is agreed to use the subscription right separately from the original share, with the Company's issued capital increase to be paid either cash and/or using due cash debts for the subscriber by the Company according to their contribution share.

This increase was subscribed by an amount of EGP 958 672 188 (EGP 473 225 502 in Cash and EGP 485 446 686 covered through the outstanding balances due to shareholders) divided on 958 672 188 shares with a par value of 1 EGP each to be the total capital issued and fully paid after the increase equals to EGP 1 094 009 733, it has been annotated in the commercial register at May 31, 2015.

| Balance at September 30, 2025            | 6 378 181                               | 88 882                          | 46 721                                            | 904 041                              | 7 417 825  |

\*Share premium

The share premium represented in the difference between the amount paid and nominal value for issued shares and issuance cost is deducted from it. The share premium was transferred to both legal reserve and special reserve according to Law No. 159 of 1981.

|               | September 30, 2025 | December 31, 2024 |
|---------------|--------------------|-------------------|
| Share premium | 904 041            | 904 041           |

The special reserve represented in the transferred amount from the net share premium in 2007 less the amount transferred to the legal reserve.

During 2011, the special reserve was reduced by an amount of EGP 2 990 thousand which represents the difference between treasury shares purchasing cost amounted to EGP 3 097 thousand and the nominal value of these shares amounted to EGP 107 thousand which was written off during 2012.

During 2012, the special reserve was reduced by an amount of EGP 2 114 thousand which represents the differences between treasury shares purchasing cost amounted to EGP 6 365 thousand and its reselling price amounted to EGP 4 251 thousand.

The share premium was reduced by an amount of 9 570 thousand EGP, which represent the difference between cost of purchasing treasury shares during the year 2020 with an amount of 19 570 thousand EGP and the nominal value of shares of 10 million EGP.

The share premium has also been increased by an amount of 4,750 thousand Egyptian pounds, representing the difference between the sale price of treasury shares during the year 2020 by an amount of 6,750 thousand Egyptian pounds and the nominal value of the shares of 2 million Egyptian pounds.

\*\* The balance represents an employee benefit plan based on share based payments settled in the form of shares and is measured at fair value on the date the benefits are granted. The fair value of the plan is recognized in the Statement of Profit or Loss over the period of the plan according to management's estimates of what will be implemented during this grant period. This plan ended at the end of 2018.

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025  
(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

## 25-Capital Management

The group's management aims to manage capital to maintain the group's ability to continue in a way that achieves a return for shareholders and provides benefits to other stakeholders that use the financial statements. Providing and maintaining the best capital structure for the purpose of reducing the cost of capital. To maintain the best capital structure, management changes the value of dividends paid to shareholders, reduces capital, or issues new shares for the group's capital.

The Group's management monitors the capital structure using the ratio of net loans to total capital. Net loans are the total of loans, advances and notes payable minus cash. The total capital represents the company's total equity as shown in the consolidated balance sheet, in addition to net loans.

Net debt to equity ratio at September 30, 2025 and December 31, 2024 as follows:

### Total loans and notes payables

**Legal claims provision**

The amounts shown comprises of gross provisions in respect of legal claims brought against the Group, and management opinion after taking appropriate legal advice, that the outcome of these legal claims will not exceed significantly the provision formed as at September 30, 2025.

**Warranty Provision**

The Group provides warranty on its products and guarantees to either fix or replace the products that are not working properly, and the Group has estimated its warranty provisions to be EGP 122 275 thousand at the end of the period for expected warranty claims ( local component) in the light of management experience for repair and returns level in previous years the warranty provision includes a long-term provision amounted as at September 30, 2025 EGP 22 955 thousand (at December 31, 2024 EGP 7 070 thousand).

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025  
(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

## 28-Provisions (Continued)

### Other provisions

Other provisions are related to claims expected to be made by a third party due to the interpretation disputes related to some laws and regulations regarding the Group operations.

The information normally published about provisions in accordance with accounting standards has not been disclosed as the management believes that doing so would drastically affect the outcome of the negotiation with those related third parties according to the paragraphs no. 91 and 92 of the EAS 28 and such provisions are reviewed by management on a yearly basis and adjusted based on latest developments, discussions and agreements with the third party.

## 29-Financial risk management

### 1- Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency exchange rates risk, price risk, cash flows and fair value interest rate risk), credit risk and liquidity risk.

The Group's management aims to minimize potential adverse effects of such risks on the Group's financial performance

#### A-Market risk

##### 1.Foreign currency exchange rate risk

The Group is exposed to foreign exchange rate risk arising from various currency exposures, primarily with respect to the US Dollar and Euro. Foreign exchange rate risk arises from future commercial transaction, assets and liabilities in foreign currency outstanding at the consolidated balance sheet date, and also, net investments in foreign entity.

The below table shows the exposures of foreign currencies at the consolidated balance sheet date, presented in EGP, as follows:

|                  | September 30, 2025 |             |             | December 31, 2024 |
|------------------|--------------------|-------------|-------------|-------------------|
|                  | Assets             | Liabilities | Net         | Net               |
| US Dollars       | 3 381 466          | (6 730 602) | (3 349 136) | (4 107 528)       |
| Euros            | 242 601            | ( 176 655)  | 65 946      | 137 618           |
| Other currencies | 33 117             | ( 138 307)  | ( 105 190)  | ( 182 113)        |

##### 2.Price risk

The Group has no investments in a quoted equity security, so it's not exposed to the fair value risk due to changes in prices

##### 3.Cash flows and fair value interest rate risk

Some of the group companies are exposed to the risk of changes in interest rates due to the existence of long-term loans. Long-term loans with variable interest rates expose the group to the risk of cash flows being affected by changes in interest rates. Long-term loans with fixed interest rates expose the group to the risk of the fair value being affected by changes in interest rates.

Loans, advances and bank overdrafts with variable interest rates amounted to 36,137,362 thousand Egyptian pounds on September 30, 2025 (22,408,701 thousand Egyptian pounds on December 31, 2024). It is worth noting that most of these loans and advances (non-banking financial services sector) were used for customer contracts for the purpose of financing car sales contracts and operating and financing lease contracts, and they are transferred by guaranteeing the financial rights of the contracts concluded and arising from those contracts towards the customers of the group companies.

Financial assets that carry fixed interest rates are amounted to EGP 4,406,714 thousand as at September 30, 2025 (EGP 3,468,453 thousand as at December 31, 2024).

|               |     | September 30, 2025 | December 31, 2024 |
|---------------|-----|--------------------|-------------------|
| Time deposits | USD | 4 100 839          | 3 333 346         |
| Time deposits | EUR | 89 009             | 66 416            |
| Time deposits | EGP | 216 866            | 68 691            |
|               |     | <u>4 406 714</u>   | <u>3 468 453</u>  |

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

#### **B-Credit risk**

Credit risk is managed on a group basis. Due to presence of cash and bank deposits, as well as credit exposures to wholesalers and retail customers, including outstanding accounts and notes receivables.

For banks, the Group is dealing with the banks which have a high independent rating and banks with a good solvency in the absence of an independent credit rating.

For suppliers and wholesalers, the Credit Controllers assess the credit quality of the wholesale customer, taking into account their financial position, past experience and other factors.

For individuals the legal arrangements and documents accepted by the customer are minimizing the credit risk to its lowest level. Provisions are accounted for doubtful debts on an individual basis.

The ratio of allowance for impairment of accounts and notes receivables to the total debts is as following:

|                                                                 | <u>September 30, 2025</u> | <u>December 31, 2024</u> |
|-----------------------------------------------------------------|---------------------------|--------------------------|
| Notes and accounts receivables                                  | 31 720 313                | 20 763 676               |
| Debtors and other debit balances                                | 6 584 581                 | 5 868 943                |
| Due from related parties                                        | 176 964                   | 257 978                  |
| Cash                                                            | 7 565 064                 | 7 422 549                |
| <b>Total</b>                                                    | <b>46 046 922</b>         | <b>34 313 146</b>        |
| Expected credit loss for the above                              | 641 646                   | 684 020                  |
| <b>The ratio of the expected credit loss to the total debts</b> | <b>1.39%</b>              | <b>1.99%</b>             |

#### **C-Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, the Group's management aims at maintaining flexibility in funding by keeping committed credit lines available.

#### **2- Fair value estimation**

the fair value is assumed to approximate the fair value less than any estimated credit adjustments for financial assets and financial liabilities with maturity dates of less than one year, and for disclosure purposes, the interest rates available to the company for similar financial instruments are used to reduce the contractual future cashflow to estimate the fair value of the financial liabilities

For the fair value of financial instruments that are not traded in an active market, The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Quoted market prices or dealer quotes for the financial instruments or similar instruments are used for long-term debt.

Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. At the balance sheet date, the fair value of non-current liabilities does not significantly differ from their carrying amount, as the interest rates do not significantly differ.

GB Corp (S.A.E)

\* These investments are classified as investments in subsidiaries, where the group controls this investments , where it is entitled to variable returns during its participation and its ability to influence returns through its authority over the Investments.

\*\* The company has been liquidated and the commercial register has been written off in 20 January 2025.

\*\*\* The company has been liquidated and the commercial register has been written off in 17 May 2025.

\*\*\*\* The company has been liquidated and the commercial register has been written off in 20 May 2025.

\*\*\*\*\* During the fourth quarter of 2024, GB Capital holding for Financial Investments "S.A.E." has merged GB Finance – BV in GB Capital BV , which is wholly owned by GB Capital holding for Financial Investments "S.A.E." , and GB Capital BV, which is wholly owned by GB Finance – BV. As a result of the merger, GB Capital BV became 100% owned by GB Capital holding for Financial Investments "S.A.E." instead of GB Finance – BV. Also it is worth mentioning that the merger process was carried out at the book value of all the company's assets.

\*\*\*\*\* The company filed an arbitration case against the People's Democratic Republic of Algeria during the year 2022. These proceedings were initiated as a result of the severe damage and losses suffered by the company due to the measures taken by the Algerian government against the company's business and investments in Algeria through the company's indirect shareholding amounting to 54% of the company's shares GBR Auto and 48.8% of the shares of GBR Service, which were incorporated in Algeria. It should be noted that the minimum damage suffered by the company is the loss of its invested capital, amounting to approximately USD 24 million, excluding foregone profit and interest. And the procedures of the arbitration case are ongoing.

### 39 – Private Risk Reserve

The risk reserve is represented in non-banking financial services, the effects of applying the Egyptian Accounting Standard No. 47 “Financial Instruments” equivalent to 1% of the assets listed in the risk weights in accordance with the provisions of the decisions issued by the Board of Directors of the General Authority for Financial Supervision No. 200 of 2020 on some companies that engage in financial activities

Non-banking activities, and the balance on December 31, 2024, reached 20.3 million Egyptian pounds, and the balance of this reserve has been reversed during the first quarter of 2025 after obtaining the approval of the FRA.

### 40 – General Risk Reserve

A general risk reserve is the difference between applying the expected credit loss model according to the non-bank financial companies' application of the Egyptian Accounting Standard No. 47 on January 1, 2021, for the provision for doubtful debts.

### 41- Reserve for financial Solvency

In accordance with Article No. (6) of the Financial Regulatory Authority's Board of Directors Decision No. (191) of 2018, a general provision is formed at the rate of (1%) of the total regular balances, and a provision is formed on doubtful balances according to the rates of delay in collection divided into four Levels according to the degree of regularity in payment for each individual case.

An amount of retained profits or losses is set aside in the solvency risk reserve account within equity, and the reserve amount is calculated and always adjusted by deduction from or refund to the retained profits or losses, by the amount of the excess of the impairment provision calculated in accordance with the solvency standards over the provision for impairment of customers that was recognized in accordance with Egyptian accounting standards at the date of the financial statements.

#### **43- Significant accounting policies**

The following accounting policies that are adopted in the preparation of the consolidated interim financial statements are summarized below:

##### **A- Business combination**

- The Group accounts for business combination using the acquisition method when control is transferred to the Group.
- The consideration transferred in the acquisition is generally measured at fair value, as are the net assets acquired.
- Any goodwill that is tested annually for Impairment. Any gain on a bargain purchase recognized in profit or loss immediately.
- Transaction cost is expensed as incurred, except for the issuance of securities related to the issue of debt or equity securities.
- The consideration transferred does not include amounts related to the settlement of previously outstanding relationship. Such amounts are generally recognised in profit or loss.
- Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that met the definition of financial instrument is classified as equity, then it is not re-measured, and settlement is accounted for within equity. Otherwise, other contingent consideration is re-measured at fair value at each reporting date and in addition to the changes in the fair value of the contingent consideration are recognized in profit or loss.

##### **1) Subsidiaries**

- Subsidiaries are entities controlled by the Group.
- The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its authority over the entity.
- The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

##### **2) Non-controlling interests**

NCI are measured at their proportionate share of the acquirer's recognized net assets at the date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

##### **3) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

##### **4) Transaction elimination from consolidation financial statements**

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from investment transactions that are accounted for using equity method with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment of the transferred assets.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

**B- Foreign currency**

**1) Foreign currency transactions**

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Non-monetary items that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined.

Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Foreign currency differences are generally recognised in profit or loss.

However, foreign currency differences arising from the translation of the following items are recognised in Other comprehensive income.

**2) Foreign Operations**

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated at the exchange rates at the reporting date. The income and expenses of foreign operations are translated at the exchange rates at the dates of the transactions.

Foreign currency differences are recognised in OCI and accumulated in the translation reserve, except to the extent that the translation difference is allocated to NCI.

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to NCI.

When the Group disposes of only part of an associate or joint venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss. Then the partial share must be reclassified.

**C- Discontinued operation**

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale.

When an operation is classified as a discontinued operation, the comparative statement of profit or loss and OCI is re-presented as if the operation had been discontinued from the start of the comparative period.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

#### **D) Revenue from customer contracts.**

The Company recognizes revenue from contracts with customers based on a five-step model as specified in the standard:

Step 1: Define the contract(s) with the customer: A contract is defined as a binding agreement between two or more parties that creates enforceable rights and obligations and specifies the criteria that must be met for each contract.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount the company expects to receive in exchange for the transfer of goods or services promised to the customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that includes more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that identifies the amount paid that the Company expects to receive in exchange for performance of obligation.

Step 5: Revenue is recognized when (or whenever) the entity performance an obligation. A company satisfies a performance obligation and recognizes revenue over a period of time if one of the following criteria is met:

(a) The Company's performance does not create any asset that has an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

(b) The Company creates or enhances an asset that the Customer controls when the asset is created or enhanced.

(c) The customer simultaneously receives and consumes the benefits provided by the company's performance as soon as the company performs.

- For performance obligations, if one of the above conditions is met, revenue is recognized over a period of time, which represents the time in which the performance obligation is fulfilled.

- When a company satisfies a performance obligation by providing the promised services, it creates a contract-based asset on the amount obtained from the performance. When the amount received from the customer exceeds the amount of revenue generated, this results in advance payments from the customer (a contract obligation).

- Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue and costs can be measured reliably, where appropriate. Costs of obtaining a contract with the customer

- Under EAS 48, certain additional costs incurred in obtaining a contract with a customer ("contract costs"), which previously did not qualify for recognition as an asset under any of the other accounting standards, are deferred in the statement of financial position.

#### **E- Employee benefit**

##### **1) Short – term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or implied obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

**2) Share – based payment arrangements**

The fair value (at the date of grant) of equity-settled share-based payment arrangements granted to employees in the form of equity instrument is generally recognised as an expense, with a corresponding increase in equity, over the maturity period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of grants that meet the related service and non-market performance conditions at the maturity date.

For share-based payment (equity instrument) grants with non-maturity conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no outstanding adjustments between expected and actual outcomes.

**3) Defined contribution plans**

The Obligations for the defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

The Group pays contributions to the government social insurance system for their employees based on the rules of the social insurance law no 79 for the year 1975. The employees and employers contribute under this law with a fixed percentage of wages. The Group's commitment is limited to the value of their contribution. And the Group's contribution amount expensed in profits and losses according to accrual basis.

**4) Termination benefits**

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the financial statements date, then they are discounted - before tax – to reflect the time value of money.

**F- Finance income and finance costs**

The Group's finance income and finance costs include:

- interest income.
- interest expense.
- Foreign currency gains or loss on financial assets and financial liabilities.

Interest income or expense is recognised using the effective interest method.

Interest expense of non-banking financial corporations is represented in cost of sales and other corporations within finance costs.

**G- Income Tax**

The recognition of the current tax and deferred tax as income or expense in the profit or loss for the period, except in cases in which the tax comes from process or recognized event - at the same year or in a different period - outside profit or loss, whether in other comprehensive income or in equity directly or business combination.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

**1) Current income tax**

The recognition of the current tax for the current period and prior periods and that have not been paid as a liability, but if the taxes have already been paid in the current period and prior periods in excess of the value payable for these periods, this increase is recognized as an asset. The taxable current liabilities (assets) for the current period and prior periods measured at expected value paid to (recovered from) the tax authority, using the current tax rates (and tax laws) or in the process to issue in the end of the financial period. Dividends are subject to tax as part of the current tax. Should only be offset when specific conditions are met.

**2) Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- a. Taxable temporary differences arising on the initial recognition of goodwill.,
- b. Temporary differences on the initial recognition of assets or liabilities in a transaction that is not: 1) business combination  
and 2) And not affects neither accounting nor taxable profit or loss.
- c. Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of such temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans for individual subsidiaries in the Group. unrealized deferred tax assets are reassessed at each reporting date, and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

**H- Inventories**

Inventories are valued at cost or net realisable value whichever is lower. Cost is determined by the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and an appropriate share of production overheads (based on normal operating capacity) but excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

**I- Property, plant and equipment**

**1) Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

The modified cost model was adopted which the cost and accumulated depreciation for some categories of fixed assets (Machinery and equipment, Vehicles, Furniture and office equipment, Tools and supplies) are modified using modification factors stated in annex (A) of EAS no. (13). The increase of net fixed assets which are qualified to modification, were recognized in other comprehensive income items and was presented as a separate item in equity under the name of "modification surplus of fixed assets". The realized portion of modification surplus of fixed assets is transferred to retained earnings or losses in case of disposal or abandonment of the asset which qualified for modification or usage (depreciation difference resulting from the adoption of the special accounting treatment).

**2) Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that a future economic benefits associated with the expenditure will flow to the Group.

**3) Depreciation**

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the (straight-line method) over their estimated useful lives for each item and is generally recognised in profit or loss.

Land is not depreciable. Estimated depreciation rates for each type of assets for current and comparative periods are as follow:

| Asset                          | Depreciation rate                       |
|--------------------------------|-----------------------------------------|
| Buildings                      | 2%-4%                                   |
| Machinery & equipment          | 10%-20%                                 |
| Vehicles                       | 20%-25%                                 |
| Fixtures & Office furniture    | 6%-33%                                  |
| IT infrastructures & Computers | 25%                                     |
| Leasehold improvements         | 20% - or lease period whichever is less |

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

**4) Reclassification to investment property**

The reclassification of assets to investment property when the use of a property changes from owner-occupied to investment property.

**5) Project under construction**

The projects under construction recognized at cost. All expenses related to cost includes direct and necessary to prepare the asset to the state that is ready to use and in the purpose for which it was acquired for. The asset transferred from projects under construction to fixed assets when it is completed and ready to use.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

## **J- Intangible assets and goodwill**

### **1) Recognition and measurement**

#### **Goodwill:**

Arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses.

#### **Other intangible assets:**

Other intangible assets, including patents and trademarks, that are acquired by the business combination and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

The right of use of the trademark is amortized on a straight line method over the expected 30 years of use.

#### **Computer software**

Costs associated with developing or maintenance of computer software programmes when are recognised as an expense as incurred. Costs that are directly associated with identifiable and unique software products controlled by the Company and will probably generate future economic benefits for more than one year, are recognised as intangible assets.

Expenditure, which enhances or extends the performance of computer software programmes beyond their original specifications is recognised as a capital improvement and added to the original cost of the software. Expenditure to acquire computer software is capitalized and included as an intangible asset. Computer software costs recognised as assets are amortised using the straight-line method over their useful lives and not exceeding of 3 years.

#### **Knowhow**

The amounts paid against knowhow are recognized as intangible assets in case of knowhow have a finite useful life and amortized over their estimated useful lives.

### **2) Subsequent expenditure**

Subsequent expenditure is capitalised only as an asset if it is an intangible asset when the intangible asset will increase the future economic benefits related research and development projects under construction which is recognized as intangible assets. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

### **3) Amortization**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the (straight-line method) over their estimated useful lives, and is generally recognised in profit or loss.

Goodwill is not amortised.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

## **K- Investment property**

Investment property is property held by the Group for rental or rise in value, or both and initially measured at cost and subsequently at cost less accumulated depreciation and impairment, and recognize in profit and loss the depreciation expenses and impairment losses.

The depreciation of investment property calculated using (straight-line method) over their estimated useful lives for each type of investment property, land is not depreciated.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

## **L - Financial instruments**

### **EAS 47- Financial instruments**

EAS 47 – Defined the recognition and measurement of financial assets and financial liabilities and some of non-financial items agreements for sale or purchase. This standard replaces EAS 25 financial instruments: presentation and disclosure and EAS 26 financial instruments.

The recognition and measurement and EAS 40 financial instruments disclosures applied on 2021 disclosures.

#### **Financial assets and financial liabilities Classification and measurement**

- The new standard requires the company to evaluate the classification of financial assets at the company's financial statements according to the financial assets cash flow conditions and the company related business module for financial assets certain category.
- EAS 47 has no longer available for sale classification for financial assets. The new standard contains different requirements for financial assets in debit instruments or equity instruments.

The financial instruments must be classified and measured by one of the following:

- Amortized cost, which actual interest rate will be applied or
- Fair value through comprehensive profit and loss with subsequent reclassification to profits and losses when the financial assets sale.
- fair value through profit and losses
  - a. Investments in equity instruments must be classified and measured by one of the following methods except for those considered and applied owners' equity accounting.
- Fair value through other comprehensive income through subsequent reclassification to profits and losses statement when financial assets have been sold.
- Fair value through profits and losses
  - b. The company initially continues in measurement of financial assets by using fair value plus cost of transaction at the initial recognition except the financial assets measured at fair value through profits and loss in accordance with the current practices.

EAS 47 largely retains the current requirements including those in EAS 26 for financial liabilities classification and measurements.

The application of EAS 47 didn't have a significant impact on the company's accounting policies related to financial liabilities and derivatives.

#### **Impairment:**

- The expected credit loss model requires the company to recognize a provision for doubtful debts on all financial assets carried at amortized cost, as well as debt instruments classified as financial assets at fair value through other comprehensive income since initial recognition, regardless of whether the loss has occurred.
- Below are the main changes in the group's accounting policy for impairment of financial assets.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

When determining a default for the purpose of determining the risk of a default, the entity shall apply a default definition consistent with Identification used for internal credit risk management purposes of the relevant financial instrument and theoretical qualitative indicators when appropriate. However, it is a rebuttable assumption that the default does not occur later when the financial asset is due for a period of 90 days unless an entity has reasonable and supportive information to demonstrate that the non-satisfactory default criterion is the most appropriate.

The definition of default used for these purposes is applied consistently to all financial instruments unless information is available that demonstrates that another default definition is more appropriate for a particular financial instrument.

A three-stage approach is applied to measure expected credit losses for financial assets listed at cost, depreciated and debt instruments designated as Fair value through other comprehensive income. Assets are transferred through.

The following three stages are based on the change in the quality of credit ratings since initial recognition for these assets:

- Principle of these assets

- Stage one: 12-month expected credit losses.

For exposures that have not resulted in a quantitative increase in credit risk since initial recognition, a portion of the credit risk is recognized. Lifetime ECL based on the probability of default occurring over the next 12 months.

- Stage two: Lifetime ECL - not credit-impaired

For credit exposures that have resulted in a significant increase in credit risk since initial recognition, but not Credit impaired, lifetime expected credit losses are recognized.

- Stage Three: Lifetime Expected Credit Loss Financial assets are credit-impaired when the One or more events that have a detrimental effect on the estimated future cash flows of those assets Finance.

- **Measurement**

The company applied the simplified approach to calculate expected credit losses for the Auto &Auto related sector companies due to the absence of an important credit component associated with their contracts with customers while apply for the non-banking financial sector companies, the general approach was applied to calculate expected credit losses due to the presence of an important credit component in contracts with customers of that sector.

- **Hedge accounting**

Egyptian Accounting Standard No. 47 increases the company's ability to apply hedge accounting. In addition, it has been Align the requirements of the standard more closely with the company's risk management policies, so high effectiveness will be measured in the future.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

## **M- Share capital**

### **1) Ordinary Shares**

Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction are accounted for in accordance with EAS No. (24) "Income Tax".

### **2) Repurchase and reissue of ordinary shares (treasury shares)**

When shares recognised as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity and the resulting surplus or deficit on the transaction is presented within share premium.

## **N- Provisions**

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in book value of the provision resulting from the use of discount rate to determine the present value, which reflects the passage of time is recognized as finance cost.

### **1) Warranties**

A provision for warranties is recognised when the underlying products or services are sold, based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

### **2) Legal Claims**

The recognition of the provision for legal claims when there are legal claims against the Group and after receiving appropriate legal advice.

### **3) Other Provisions**

Provisions are recognized when there are other expected claims from third parties with respect to the activities of the Group and, according to the latest developments and discussions and agreements with those parties.

## **O- Leases**

Egyptian Accounting Standard (49) replaces Egyptian Accounting Standard No. (20) - Accounting rules and standards related to financial leasing operations.

- The Egyptian Accounting Standard No. (49) "Lease Contracts" provides a single accounting model for the lessor and the lessee, where the lessee recognizes the Asset right for use of the leased asset within the company's assets and also recognizes a liability, which represents the present value of the unpaid lease payments within the company's obligations, taking into account that Leases for the lessee are not classified as an operating lease or as a finance lease. There are optional exemptions for short-term and low-value leases.

With regard to the lessor, the lessor must classify each of its lease contracts as either an operating lease or a finance lease.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

- With regard to the finance lease, the lessor must recognize the assets held under a finance lease contract in the statement of financial position and present them as amounts receivable in an amount equal to the net investment in the lease contract.  
For operating leases, the lessor must recognize lease payments from operating leases as income either on a straight-line basis or on any other regular basis.

**Recognition and measurement**

- At the inception of the contract, the company evaluates whether the contract contains lease arrangements. For such lease arrangements, the company recognizes Asset right for use and lease contract liabilities, with the exception of short-term lease contracts and low-value asset contracts as follows:

- On initial recognition, a right-of-use asset is measured as the amount equal to the lease liability, which is initially measured, adjusted for pre-contract lease payments, initial direct cost, lease incentives, and the discounted value of the estimated costs of dismantling and removing the asset. On subsequent measurement, the right-of-use asset is measured at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on a straight-line basis over the shorter of the estimated useful lives of the Asset right for use or the lease term.

- The lease contract obligation is measured at the beginning of the lease contract at the present value of the unpaid lease payments on that date over the lease period, and the lease payments must be discounted at the rate using the incremental borrowing prevailing in the country. In general, the company uses the incremental borrowing rate as a discount rate. The lease liability is then measured at amortized cost using the effective interest method.

- The Asset right for use and lease liability will be remeasured later in the event of one of the following events:

- The change in the rental price due to the linkage to the prices or the rate that became effective in the period.
- Amendments to the lease contract.
- Re-evaluation of the lease term.

Leases of non-core assets not related to the Company's main operating activities, which are short-term in nature (less than 12 months including renewal options) and leases of low-value goods are recognized in the income statement as incurred.

**Important judgments in determining the lease term for contracts that include renewal options**

The Company determines the term of the lease as the non-cancellable term of the lease, together with any periods covered by the option to extend the lease if such right can reasonably be exercised, or any periods covered by the option to terminate the lease, if it is certain to be exercised That right.

The Company has the option under some lease contracts to lease the assets for additional periods, the Company applies judgment in assessing whether it is certain and reasonably certain to exercise the option to renew, that is to say, all relevant factors that create an economic incentive to exercise the renewal, after the commencement date, are taken into account The Company reinstates the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not exercise) the option to renew (for example) a change in business strategy.

**P- Segmental reports**

A segment is a group of related assets and operations that are subject to risks and returns that are different from those of other sectors or within a single economic environment subject to risks and returns that relate to it, other than those relate of segments operating in a different economic environment.

GB Corp (S.A.E)

Notes to the consolidated interim financial statements for the financial period ended September 30, 2025

(In the notes all amounts are shown in Thousand Egyptian Pounds unless otherwise stated)

---

#### **Q- Interests in equity - accounted investees**

The Group's equity-accounted investees comprise interests in associates Companies and joint ventures. Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint venture are accounted for using the equity method. They are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of equity accounted investees, until the date on which significant influence or joint control ceases.

#### **R- Dividends**

Dividends are recorded in the Group's financial statements in the year in which they are approved by the Group's shareholders.

#### **S- Comparative figures**

When necessary, comparative figures have been reclassified to conform with changes in presentation in the current year.

### **44 – Significant Events**

- The Monetary Policy Committee (MPC) of the Central Bank of Egypt (CBE) decided in its meeting on Thursday, April 17, 2025, to cut the CBE's overnight deposit rate, overnight lending rate, and the rate of the main operation by 225 basis points to 25.00 percent, 26.00 percent, and 25.50 percent, respectively. It also decided to reduce the credit and discount rate by 225 basis points to 25.50%.
- On May 22, 2025, the Monetary Policy Committee of the Central Bank of Egypt decided to reduce the overnight deposit rate, the overnight lending rate, and the main operation rate by 100 basis points, bringing the deposit rate to 24.00%, the lending rate to 25.00%, and the main operation and discount rate to 24.50%.
- On August 28, 2025, the Monetary Policy Committee of the Central Bank of Egypt decided to reduce the overnight deposit rate, the overnight lending rate, and the main operation rate by 200 basis points, bringing the deposit rate to 22.00%, the lending rate to 23.00%, and the main operation and discount rate to 22.50%.

### **45 – Subsequent Events**

- On October 2, 2025, the Monetary Policy Committee of the Central Bank of Egypt decided to reduce the overnight deposit rate, the overnight lending rate, and the main operation rate by 100 basis points, bringing the deposit rate to 21.00%, the lending rate to 22.00%, and the main operation and discount rate to 21.50%.
