Limited review report

On the interim condensed separate financial statements

To the Board of Directors of Qalaa for Financial Investments S.A.E.

Introduction

We have conducted a limited review for the accompanying interim condensed separate statement of financial position of Qalaa for Financial Investments S.A.E. (the "Company") as of 30 September 2026 and the related interim condensed separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and fair presentation of these interim condensed separate financial statements in accordance with Egyptian Accounting Standard 30 "Interim financial statements", and our responsibility is limited to expressing a conclusion on these interim condensed separate financial statements based on our limited review.

Scope of the limited review

We have conducted our limited review in accordance with the Egyptian Standard on Limited Review Engagements No. 2410 "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim condensed separate financial statements.

Basis for qualified conclusion

Bank confirmations were not received from certain banks in connection with our audit of the separate financial statements of the Company for the year ended 31 December 2025. In the absence of confirmation responses, until the date of this report, we have not been able to satisfy ourselves by satisfactory alternative review procedures regarding the completeness and accuracy of the balances due to these banks of EGP 10.5 billion as at 30 September 2026 (EGP 9 billion as of 31 December 2025) and related disclosures and any other bank balances including unfunded exposures and contingent liabilities that the Company may have had with these banks as at 31 December 2025 and 30 September 2026.

Accordingly, we were unable to determine whether any adjustments might have been necessary in respect of these balances in the interim condensed separate statement of financial position as at 30 September 2026 and, consequently, to the interim condensed separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the nine-month period then ended, in addition to unfunded exposures, contingent liabilities or other disclosures that may have been required in the interim condensed separate financial statements for the nine-month period then ended

Qualified conclusion

Except for the possible adjustments that might have been determined to be necessary had we been able to verify the completeness and accuracy of bank balances, balances due to banks and any unfunded exposures or contingent liabilities, in light of our limited review, nothing has come to our attention that causes us to believe that the accompanying interim condensed separate financial statements are not prepared, in all material respects, in accordance with Egyptian Accounting Standard 30 "Interim financial statements".

Emphasis of matter

Without additional qualification to our conclusion, we draw attention to note (9) to the interim condensed separate financial statements which indicates that the company's current liabilities exceeded its current assets by EGP 10.3 billion at 30 September 2026 and it had accumulated losses of EGP 15.8 billion as of that date. These events and conditions along with other matters described in note (9) indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

	2,822,803	**2,575,181**

2. Financial assets and financial liabilities (continued)

2(a) Loans to subsidiaries

According to the agreement dated March 31, 2024, signed between the company, National Development and Trading Company, and United Foundries Company, the outstanding debts owed by them was converted from U.S. dollars to Egyptian pounds, effective from March 31, 2024. The parties agree that the repayment period for this debt shall not exceed fifteen years from the date of signing this agreement by both parties (the loan to the National Company for Development and Trade is repayable in four instalments, with the final instalment due in 2029, and the loan to the United Company for Foundries is repayable in fifteen instalments, with the final instalment due in 2038). The contracting parties have agreed that from the date of this contract, this debt shall be considered an interest-free loan to support the company's financial growth and business operations expansion plan.

The movement in impairment of loans due from subsidiaries, reflected within the asset balance:

	30 September 2026	31 December 2025
Balance at 1 January	-	-
Formed during the period	-	-
Impairment no longer required *	-	(422,583)
Foreign currency exchange loss differences	-	-
Adjustments **	-	422,583
Total	**-**	**-**

* The Company recognized an impairment no longer required for 86.2% of the proceeds received from the National Development and Trading Company during the year 2025.

** For financial assets that are credit-impaired on purchase or origination, the lifetime ECL on initial recognition are included in the estimated cash flows used to determine the credit-adjusted effective interest rate. Thus, no loss allowance is recognised on initial recognition. However, an entity should recognise, at each reporting date in the income statement, the amount of the change in lifetime ECL as an impairment gain or loss.

The loan is subsequently measured at amortised cost, Factoring in ECL with interest accrued using the effective interest rate method, considering the unwinding of the difference between the cash paid and fair value on initial recognition.

During the year 2025, the Company reassessed the estimated future cash flows associated with the loan facility granted to National Development and Trading Company based on revised cash flow projections. As a result of this reassessment, the previously recognised loan was derecognised, and a new loan receivable was recognised at the present value of the revised estimated future cash flows.

The average effective interest rate on deposits at 30 September 2026 was 13.5% (31 December 2025: 14.5%). Time deposits and current accounts with banks are placed with local banks under the supervision of Central Bank of Egypt.

2. Financial assets and financial liabilities (continued)

2(c) Loans

On 1 February 2012 the Company has signed a long-term loan contract with an amount of US $325 million with Citi Bank Company - syndication manager along with other consortium of banks (represented in Arab African International Bank S.A.E, Arab International Bank, Banque du Caire, Misr Bank S.A.E, and Piraeus Bank) and guaranteed by Overseas Private Investment Corporation for the purpose of expanding the Company's investments and refinancing the outstanding debts as at 31 December 2011 (which represented in the loan granted to the Company on 15 May 2008 with an amount of US $200 million for a period of five years from a Consortium of banks represented in Arab African International Bank, Suez Canal Bank, Misr bank , Piraeus Bank and Citi Bank London "syndication manager").

Loan was to be paid on nine installments during the contract period begins from the third year to the end of contract on 15 May 2013. The loan balance is US $172 million (equivalent to EGP 1 billion) as at 31 December 2011 until the date of the new contract).

The loan amount is divided into three classes:
First class: Irrevocable amount of US $175 million bearing variable interest rate (4.25%+Libor rate) for 5 years begins from the date of the contract and payable on five equal annual instalments.

Second class: Irrevocable amount of US $125 million bearing variable interest rate (3.9%+Libor rate on the date of withdrawal) for 10 years begins from the date of the contract and payable on nine equal annual instalments with one-year grace period.

Third class: Irrevocable amount of US $25 million bearing variable interest rate (3.9%+Libor rate on the date of withdrawal) and the Company has the right to use it within nine years begins from the date of the contract and payable on nine equal annual instalments begins from the date of withdrawal with one year grace period.

During the year 2024, Qalaa entered into a group of agreements with the participant's banks to settle the above debt as follows:

1. Purchased loan QHRI and Citadel Capital Partners Companies:

The Company’s ordinary general assembly decided on 30 May 2024 to approve the offer submitted by Qalaa Holding Restructuring Ltd “QHRI” (a company that was established in accordance with the laws of the British Virgin Islands) by the owners of Citadel Capital Partners Ltd. (the “main shareholder” of Qalaa) to purchase the external debt owed by Qalaa to certain banks and Financial institutions participating in the syndicated loan agreement dated 1 February 2012 (“the Syndicated loan”) signed between Qalaa and a group of local and international banks and institutions. This purchase was at an amount equivalent to 20% of the remaining principal balance of the lenders’ share who accepted the purchase offer in the Syndicated loans payable in USD in an international bank account selected by the accepting lenders. The opportunity to participate in the debt purchase was offered to all Qalaa shareholders via the funding of QHRI against a debt note issued by the latter. The Purchased Senior Debt was concluded effective 30 September 2024 and the participating Qalaa shareholders will henceforth be the beneficial holders of the Purchased Senior Debt. The debt will then be extinguished by Qalaa in the form of a capital increase providing the participating shareholders repayment in the form of shares in Qalaa or cash or a combination thereof. Such agreement serves to reduce Qalaa’s debt levels and financing costs.

On 30 September 2024, an amount of USD 240,752,323 equivalent to EGP 12 billion has been reclassified from bank loans to loan from Qalaa Holding Restructuring Ltd and an amount of USD 60,852,032 was reclassified to Citadel Capital Partners on 30 October 2024.

2. Financial assets and financial liabilities (continued)

2(c) Loans(continued)

On 30 October 2024, an assignment of rights agreement was concluded between QHRI Company and Citadel Capital Partners Company (the main shareholder) for an amount of USD 60,852,032.

This amount represents Citadel Capital Partners Company's share of the debt owed by the Company to QHRI Company, which QHRI had acquired from the relevant banks and financial institutions. This is part of the procedures to increase the issued capital of the Company enabling Citadel Capital Partners Company to subscribe to its share (whether in preferred or common shares) using the credit balance. It is stipulated that this assignment shall be non-transferable and may not be disposed of, pledged, traded, or endorsed until payment is made.

Citadel capital partners subscribed in the first phase of the debt purchase subscription with its full share (23.487%) amounting to USD 6,623,334. Furthermore, Citadel capital partners subscribed in the second phase of the debt purchase agreement with an amount of EGP 25,256,730 (equivalent to USD 504,905) bringing the total amount contributed by CCP to USD 7,128,239 which constitutes 25.277%. Accordingly, the main shareholder's assignment was completed with an amount of USD 60,852,032 out of the total USD 240,752,323.

According to the Financial Regulatory Authority's approval on the Company's board of directors resolution dated 11 June 2025 regarding the proposal to increase the company's authorised capital from EGP 10 billion to EGP 50 billion & issued capital from EGP 9.1 billion to EGP 23.1 billion to settle debts & strengthen working capital, the company resolved to reclassify QRHI & CCP loans balance to payments under capital increase as of 30 September 2025.

On July 17, 2025, the Extraordinary General Assembly approved the increase of the authorized capital from EGP 10 billion to EGP 50 billion, and the issued capital (ordinary and preferred shares) from EGP 9.1 billion to EGP 23.1 billion distributable with an increase of EGP 14 billion distributable to 2,800,000,000 shares of which 2,181,940,540 ordinary shares and 618,059,460 preferred shares with a par value of EGP 5 per share. The capital increase subscription was conducted in two phases. A total of 2,406,464,000 shares were subscribed of which 1,798,211,430 ordinary shares and 608,252,570 preferred shares, with a total value of 12,032,320,000 Egyptian pounds

On 5 October 2025, the commercial register of Qalaa has been updated to reflect the increase of the company's authorized capital from EGP 10 billion to EGP 50 billion, and the increase of the issued and paid-up capital from EGP 9,100,000,000 to EGP 21,132,320,000, divided into 4,226,464,000 shares, all being cash shares, comprising 3,216,472,781 ordinary shares and 1,009,991,219 preferred shares.

2. Arab International Bank:

Qalaa and its subsidiaries and related companies entered a debt restructuring agreement with Arab International Bank effective in the third quarter of the year 2024. Under this agreement, loans were restructured and will be repaid in instalments totalling USD 184 million starting from 2024 till 2033. A variable interest rate with a SOFR base will be applied semi-annually. Once the payment schedule is completed under the new terms, USD 44 million along with any accrued interest and excess interest, will be waived by the bank.

On 4 September 2024, Qalaa announced the completion of the debt settlement agreement.

2. Financial assets and financial liabilities (continued)

2(c) Loans(continued)

According to the agreement, a wholly owned subsidiary took over Qalaa in its debt and will settle its outstanding loan of USD 44 million, on its behalf. Consequently, the loan amount has been transferred to the subsidiary. The agreement also stipulates that Qalaa guarantee to cover any shortfall in the repayment instalments.

Therefore, the company recorded a financial guarantee at fair value through the profit and loss statements for the subsidiary amounting to USD 26.5 million, It will be subject to periodic review during the preparation of subsequent financial statements, with the necessary adjustments made accordingly Note (4c).

3. Egyptian Banks:

Qalaa for Financial Investments S.A.E has entered into a debt settlement agreement with Banque Misr, Banque du Caire, Arab African International Bank, and Al Ahli Bank of Kuwait ("the Egyptian Banks"), The terms of this debt settlement resulted in the settlement of the loan against the sale of certain assets contingent on meeting the terms of the agreement. The agreement came into effect in the third quarter of the year 2024 after the condition precedent had been met. The company did not comply with some of the conditions specified in the agreement. Accordingly, all the loan balance related to the Egyptian banks have been presented as current liabilities.

Settlement and waivers	30 September 2026
Total debt before the settlement agreement	8,990,076
Other interest	1,890,294
Foreign currency exchange differences	89,154
Settlement through transfer of shares in Taqa Arabia (A)	(3,347,689)
Settlement through land plot in Tibeen area (B)	(600,000)
Compensation for stock price variations (C)	(447,802)
Compensation for exchange rate and stock price variations paid (C)	(446,085)
Debt expected waiver in case of compliance with whole contract terms (D)	6,127,948

The settlement includes the following:

A. Shares in TAQA Arabia:
In September 2024, Qalaa transferred 239,120,667 shares (17.68%) in TAQA Arabia to the Egyptian banks, and the balance of the loan was not reduced by the value of the shares due to the following reasons:

1. Qalaa has the right to repurchase these shares (call option) during the fifth year after the transfer. The banks retain the right to resell the shares to Qalaa (Put option) during the nineth year. Qalaa did not account for the call or the put option as the shares are considered under the control of Qalaa as illustrated in point 3 below.
2. The agreement imposes restrictions on the local banks on selling the transferred shares for five years till the call option period elapses.
3. Qalaa will maintain voting rights for the transferred shares in TAQA Arabia S.A.E. until the end of the call option period.

2. Financial assets and financial liabilities (continued)

2(c) Loans(continued)

A. Shares in TAQA Arabia: (continued)

As per the agreement, Qalaa transferred the 239,120,667 shares in Taqa Arabia at an agreed price. At the end of the put option period and by the time the shares are settled against the loans, Qalaa is liable to compensate the banks with any differences below the agreed price plus a specific return and the actual share prices at the date of settlement.

B. Land Plot in Tibeen Area:
Qalaa transferred a registered 60,127 sq.m. land plot overlooking the Nile in the Tibeen area in September 2024 owned by a wholly owned subsidiary, valued at EGP 600 million, contingent on obtaining a construction license within nine months after meeting the conditions precedent. Until the license is obtained, the bank considers the selling price of the land to be EGP 233.5 million. The company did not record the partial settlement of the loan from selling the Tibeen land as the group has the right to replace the land with another asset within 6 months after the condition precedent is met.

C. Compensations for Exchange Rate and Stock Price Variations:
These include an amount of EGP 598 million which will be paid over five years in equal instalments till 31 December 2028. Of this amount Qalaa paid EGP 120 million during the year ended 31 December 2025, and EGP 30 million during the period ended 30 September 2026. Additionally, an amount of EGP 296 million was due as exchange rate compensation payable during the years 2024 and 2025. As of 31 December 2025, Qalaa paid EGP 296 million.

D. Debt expected waiver in case of compliance with whole contract terms:

As of 30 September 2026, the company is entitled to an expected waiver excluding any differences between the agreed price of TAQA shares and the actual share price at the settlement date amounting to EGP 6.1 billion and any accrued interest conditioned to compliance with the whole agreement terms and conditions. Until the company fully complies with the terms of the agreement, the agreement specifies that the bank will continue to calculate interest on the total amount at the previous interest rate under the original loan agreement in a separate account.

Given these circumstances, the debt to the Egyptian banks has not been derecognized, as the conditions of the agreement have not yet been completely satisfied.

The total loans balance as of 30 September 2026 as follows:

Current	**30 September 2026**	**31 December 2025**

2(c) Loans(continued)

D. Debt expected waiver in case of compliance with whole contract terms: (continued)

On 22 May 2024, the company and one of its fully owned subsidiaries signed an agreement with Olayan to restructure an existing USD 12 million loan by which Qalaa transferred a building to partially settle an existing loan owed by the subsidiary. Olayan assigned its right in the USD 12 million loan to one of his related parties. Qalaa Holdings will pay a monthly interest rate for three years in the form of lease payments. The company has a call option to repurchase the building within three years for USD 12 million plus a fixed annual interest rate. Management assessed that this transaction does not qualify as a sale and is recognized as a collateralized borrowing, as the company retains control over the transferred asset.

*Former Shareholder credit balance represents amounts due to shareholders that resulted from prior acquisitions as well as financing certain subsidiaries. Management doesn't have unconditional rights to defer the settlement and expects these balances to be repaid within twelve months from the date of the condensed separate financial statements.

**Other financial liabilities' balance represents the financial guarantee at fair value recorded by the company against both the Arab International Bank loan and Olayan settlements.

2(e) Maturities of financial liabilities

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due, due to shortage of funding. Company's exposure to liquidity risk results primarily from the lack of offset between assets of maturities of assets and liabilities.

The management makes cash flow projections on periodic basis, which are discussed during the Board of directors meeting and takes the necessary actions to negotiate with suppliers, follow-up the collection process from related parties to ensure sufficient cash is maintained to discharge the Company's liabilities. The Company's management monitors liquidity requirements to ensure it has sufficient cash and cash equivalents to meet operational needs while maintaining sufficient cash cover to meet the cash outflows to settle the obligations of loans and borrowings to be able to maintain financial terms, guarantees and covenants at all times.

The Company limits liquidity risk by maintaining sufficient facilities and reserves, and by monitoring cash forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or pay the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, the most advantageous market for the asset or the liability.

The Company should be able to have access to the principal market or the most advantageous market. In the absence of principal market, the Company does not need to conduct a thorough search of all possible markets to determine the principal or the most advantageous market. However, the Company takes into consideration all information reasonably available.

The table below shows the financial assets and liabilities at fair value in the separate financial statements at 30 September 2026 within the hierarchy of fair value, based on the input levels that are considered to be significant to the fair value measurement as a whole:

- Level 1: Inputs of quoted prices (unadjusted) in active markets for identical assets or liabilities, which the Company can have access to at the date of measurement.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs of the asset or the liability.

Recurring fair value measurements At 30 September 2026	Level 1	Level 2	Level 3	Total
Financial assets				
Financial assets at fair value through other comprehensive income				
Equity securities	-	32,222	-	32,222

2. Financial assets and financial liabilities (continued)

2(e) Maturities of financial liabilities (continued)

The table below shows the financial assets at fair value in the interim condensed separate financial statements at 31 December 2025 within the hierarchy of fair value.

Recurring fair value measurements At 31 December 2025	Level 1	Level 2	Level 3	Total

Financial assets at fair value through other comprehensive income				
Equity securities	-	20,344	-	20,344
Total financial assets	**-**	**20,344**	**-**	**20,344**

The Company determines the level, in the case of transfers between levels within the hierarchy of fair value through the revaluation of the classification (based on the lowest input levels that are significant to the fair value measurement as a whole). The Company did not make any transfers between levels 1 and 2 during the period.

The Company's total issued and paid-up capital is EGP 125million where Qalaa's share is 49.9% with a total of EGP 62.37 million, as of December 2025, Qalaa has paid its portion of the issued and paid-up capital amounting to EGP 62.37 million.

3. Non-financial assets and liabilities (continued)

3(a) Investments in subsidiaries and joint ventures (continued)

The management have assessed the Company as a joint venture due to the following facts:

A) Qalaa has 49.9% of the ownership interest of "Wathba for Petroleum Services".
B) Qalaa has 4 out of 8 of the board members of "Wathba for Petroleum Services" with a joint management control and equal voting rights.

**Qalaa's direct investment in ASEC Cement represents 1.86%, the effective ratio is 51.24.%.

***Qalaa's direct investment in Citadel Capital Transportation Opportunities II Ltd represents 6.549%, the indirect ownership percentage is 81.34%, and therefore the effective ratio is 87.89%

****As disclosed in notes (2A) and (6F) given the transaction carried out between entities under the common control of Qalaa, with Qalaa acting in its capacity as the parent. As such the resulting difference between the carrying amount of the old loan (net of previously recognised expected credit losses) and the present value of the new loan, it does not reflect a commercial gain or loss but rather a capital contribution by the parent, In accordance with the substance–over–form principle, this difference has been recognised as an increase in the parents investment in the subsidiary.

The loan is subsequently measured at amortized cost, with interest accrued using the effective interest rate method, considering the unwinding of the difference between the cash paid and fair value on initial recognition.

*****During the period ended 30 September 2026, the Company disposed of 3.37 million shares held in ASCOM, resulting in the recognition of a realized gain of EGP 161.2 million.

*On March 31, 2024, Qalaa for Financial Investment S.A.E executed a settlement agreement with Financial Holdings International Ltd (FHI) that resolves most of the company and its subsidiaries' obligations to FHI and transfers FHI's ownership in some of Qalaa's subsidiaries. It is worth noting that FHI has interests in several of the company's subsidiaries and is also a creditor to Qalaa and some of its subsidiaries. Under the agreement, FHI transferred its shares in several of Qalaa's subsidiaries to a Qalaa wholly owned subsidiaries including:

6. Related party transactions (continued)

6(b) Due to related parties (continued)

The National Company for Development and Trading (which owns the ASEC Group operating in the cement sector and related industries) and United Foundries Company.

This transfer resulted in Qalaa's direct and indirect ownership in these two companies reaching approximately 100%. Additionally, FHI transferred its stake in Citadel Capital Transportation Opportunities Ltd (CCTO), which owns the National Ports Company. FHI also settled most of the company's and its subsidiaries' previous obligations and return all related guarantees. FHI discharged the debts owed from National Company for Development and Trade and United Foundries company.

In exchange, approximately $13.2 million will be paid to FHI, with $4.2 million already paid and the remaining $9 million was supposed to be settled by September 30, 2024, but it has not been settled yet resulting in the balance becoming interest-bearing. Under this agreement, the company has transferred its indirect ownership (27.21%) in the National Printing Company to FHI, with the company retaining the right to repurchase this stake within two years.

6(c) Key Management Compensation

Key management personnel received total benefits during the period with an amount of EGP 34.7 million in 30 September 2026 represented in salaries and other benefits (30 September 2025: EGP 34.4 million)

6 (d)Terms and conditions

Transactions relating to Advisory fees during the period based on the Contracts in force and terms that would be available to third parties. All other transactions were made on normal commercial terms and conditions and at market rates.

The loans to related parties are repayable between 1 to 15 years from the reporting date.

Outstanding balances are secured and are repayable in cash.

6(e) Impairment of loans to related parties and due from related parties

Impairment of loans to related parties and due from related parties is estimated by monitoring ageing of balances. The Company's management examines the credit position and ability of related parties to make payments for their past due debts. Impairment is recognised for amounts due from related parties whose credit position, as believed by the management, does not allow them to pay their dues. The amount of the loss is measured as the difference between the carrying amount of the asset and the present value of future cash flows discounted at the original effective interest rate of the financial asset, and the carrying amount is reduced directly to the related parties balance by making a provision for impairment of related parties' balance.

6(F) Loans to related parties

The change in the terms of the loan is accounted for as an extinguishment of the original loan and the recognition of a new loan at fair value. As a result of the non-market interest rate (nil) inherent in the loan, there will be a difference between the cash paid and fair value on initial recognition. This difference should be accounted for in accordance with the substance of transaction. However, the loan receivable should be classified at amortized cost, following a modification that results in derecognition of the original financial asset. The financial asset would be recognized as originated credit-impaired financial asset.

7. (Losses) / Profit per share

Basic (Losses)/profit per share is calculated by dividing the (Losses)/profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period after excluding ordinary shares held in treasury.

	Nine months ended 30 September		Three months ended 30 September	
	2026	2025	2026	2025
Net (loss)/gain for the period	(904,346)	374,640	(508,792)	2,548
Weighted average number of shares including preferred shares with the same distribution rights as ordinary shares	4,226,464	1,820,000	4,226,464	1,820,000
(Loss)/Earnings per share (EGP)	**(0.214)**	**0.206**	**(0.12)**	**0.0014**

Diluted (losses)/profit per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company does not have any categories of dilutive potential ordinary shares on 30 September 2026 and 30 September 2025, hence the diluted (losses)/profit per share is the same as the basic (losses)/profit per share.

8. Basis of preparation of the interim condensed separate financial statements

Compliance with EAS

The interim condensed separate financial statements for the financial period ended 30 September 2026 have been prepared in accordance with the requirements of the Egyptian Accounting Standard (30) "Interim Financial Statements".

These interim condensed separate financial statements don't contain all the information required in preparing the full annual financial statements and should be read in conjunction with the Company's annual separate financial statements as of 31 December 2025.

The accounting policies adopted in the preparation of these interim condensed separate financial statements are consistent with those of the previous financial year and corresponding interim reporting period. except for the estimation of income tax (see note 4(d)) and the adoption of new and amended standards as set out below.

9. Going concern

As of 30 September 2026, the Company's current liabilities exceeded its current assets by EGP 10.3 billion (31 December 2025: EGP 9.5 billion), and the Company had accumulated losses of EGP 15.8 billion as of 30 September 2026 (31 December 2025: EGP 14.9 billion). These financial conditions, together with the matters described below, indicate the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern:

- Dependence on the Company's future expected dividends in meeting the future loan installments and liability repayments, which might be heavily impacted by any changes in the planned cashflows, especially from the Energy and cement sectors.

9. Going concern (continued)

- The Company, defaulted on some of the obligations related to local banks. The full balance amounting to EGP 10.5 billion had been reclassified as current liabilities in the financial statements. As of 30 September 2026, the Company has paid the total amount of EGP 446 million related to the compensation for exchange rate and stock price variations. Management is at advanced stage of discussion with the lender to regularize the defaulted instalments and the pending conditions and the management is confident that the proposed repayment plan will be more likely to be accepted. If the Company is unable to obtain deferral, complete settlement arrangements or otherwise remedy these matters, its liquidity position could be adversely impacted.

As of 30 September 2026, the Company's operations were primarily financed through borrowings and bank facilities totalling EGP 11.2 billion which are classified as current liabilities, EGP 10.5 billion are classified as current due to default in certain banks agreements The Company held cash and cash equivalents amounting to EGP 2.4 million.

Assessment of cash flow forecasts produced by management

The assessment of the going concern basis for the preparation of the financial statements of the Company relies heavily on achieving the forecasted future cash flows over the going concern assessment period and to successfully defer the defaulted debt instalments and remedy any breaches of loan conditions. Although the Company has a robust budgeting and forecasting process, there is an inherent uncertainty in the assumptions used in this process.

The management team has developed a robust and comprehensive five-year cash flow forecast for the next 5 years, which is subject to ongoing review and refinement to ensure it reflects the latest business developments and market conditions.

Key areas in determining the Company is a going concern

The key considerations in respect in respect of assessing going concern and in reaching the conclusion are set out below:

Operational Activity

- Management continues to maintain a more relaxed cash flow impact from operating expenses either through deferring payments or cost cutting policies.

Liquidity Position

The Company has experienced significant liquidity issues and to address the liquidity issues, management has undertaken the following actions.

Loans from financial institutions, with a balance of EGP 11.2 billion outstanding as of 30 September 2026 represented as follows:

- A balance of EGP 10.5 billion due to Egyptian banks, Refer to Note 2(C)
- An amount of EGP 735 million due to Sunrise Service Egypt, Refer to Note 2(C)

Other initiatives

Management continues to maintain a more relaxed cash flow impact from operating expenses either through deferring payments or cost cutting policies.

Based on the above operational and liquidity factors as well as the other initiatives, the company management is of the view that the company expects to continue to realize its assets and discharge its liabilities in the normal course of business and be able to continue to operate as a going concern.

Therefore, the separate financial statements of the company for the period ended 30 September 2026 have been prepared on a going concern basis.

10. Significant events

A) During early 2026, an intense armed conflict erupted in Iran and spread to several other Middle Eastern countries, resulting in heightened regional instability. These events are expected to have significant economic implications for the global economy and the Middle East region. Management continues to closely monitor the situation and is currently assessing the extent of the impact of these events on the Group's business activities and financial performance.

B) The monetary policy committee of the central bank of Egypt reduced interest rates by 100 points on 12 February 2026.

Under the agreement, South Valley Cement Company will transfer certain shareholdings in Group related entities to a wholly owned subsidiary of Qalaa for a total consideration of USD 7.5 million and EGP 25 million. After deducting the arbitration amount, the remaining balance will be settled in instalments ending in 2028, with Qalaa providing a guarantee for its subsidiary's obligations. The first instalment was paid in accordance with the agreed payment schedule.

D) The Employee Stock Option Plan (ESOP), which was approved by the Company's Extraordinary General Assembly on 18 January 2023 and approved by the FRA on 5 September 2023, came into effect during the reporting period. The Remuneration, Benefits and Nominations Committee granted shares to the employees, managers, and executive board of directors, representing 5% of the Company's issued shares, to eligible employees, managers and executive members of the Board of Directors. The shares are granted free of charge and are subject to a three-year lock-up and vesting period. No shares have been issued or transferred to beneficiaries up to the date of the reporting date.

E) On 10 September 2026, the Board of Directors approved a cash capital increase for existing shareholders at par value, increasing the Company's paid-up capital from approximately EGP 21.1 billion to EGP 25.0 billion.

11. Subsequent events

A) On 28 October 2026, the Extraordinary General Assembly meeting approved an increase in the Company's issued capital from EGP 21.1 billion to up to EGP 25.0 billion, representing a cash capital increase of up to EGP 3.87 billion through the issuance of up to 773.5 million shares at a nominal value of EGP 5 per share, with the subscription rights allocated to existing shareholders in proportion to their respective shareholdings. It also approved the proposed use of the capital increase proceeds totalling 3.9 billion. Additionally, the Extraordinary General Assembly approved a mechanism for the settlement of the outstanding balance due from Citadel Capital Partners related to the settlement and restructuring previously approved by the Ordinary General Assembly on 6 July 2023. Under the approved mechanism, no management fees or profit distributions attributable to Citadel Capital Partners for the year ending 31 December 2026 will be deducted from the outstanding balance. Effective from 1 January 2027, 60% of management fee distributions will be allocated toward reducing the outstanding balance, while the remaining 40% will continue to be payable to Citadel Capital Partners until the outstanding balance is fully settled.

B) On 29 October 2026, the Monetary Policy Committee of the Central Bank of Egypt decided to increase the key policy rates by 100 basis points. Accordingly, the overnight deposit rate, overnight lending rate and the rate of the main operation were increased to 20 %, 21% and 20.5%, respectively, while the discount rate was increased to 20.5%.
